

Prineville Public School Notes

CHIEF EDITOR.—Guy Lafollett.
ASSISTANTS.—Lizzie Ketchum, Iva Booth, Estelle Simpson, Irene Barnes, Chas. Christians, Carl Hyde, Carl Holder, Elwood Draper, Birdie Morris and Ceola Smith.

Effie Dobbs was absent a part of a day last week.

Clyde Rowell entered the IX grade at the beginning of last week.

Carl Hyde was absent one half of a day last week.

Finny Childs was absent the first of last week.

Frank Taylor was absent from the VIII grade one day last week.

Maggie Foster has been absent from school on account of illness.

Etta Prino was absent Wednesday and Thursday.

Artie Hardin was absent from school Wednesday afternoon.

Herbert Whitsett entered the VII grade last Monday.

Nora Dobbs was absent from school Monday.

There is going to be a program prepared for Thanksgiving.

Ceola Smith was absent from school Thursday afternoon.

Mildred Baldwin was absent from school Monday and Tuesday but has returned.

Bertha Elkins entered school last Tuesday. She will study the seventh grade work.

Carl Holder was absent from school Wednesday afternoon on account of his falling in the mud.

Miss Lizzie Ketchum was absent from the IX grade on Tuesday of last week.

Miss Addie Foster was absent from the VIII grade all of last week, on account of sickness.

Mabel Baldwin has dropped out of school for the present. We hope that she will soon be back again.

Ruth Taylor was absent from school Thursday afternoon to attend a wedding.

An attempt is being made to organize a football team in the VIII and IX grades.

Miss Frances Miller was a visitor last week. We would all like to see Frances enrolled as a student of our school.

We have ordered 24 copies of Botsford's histories to put into the library and expect them to be here soon.

Baptizing was quite common last week. One fellow was baptized twice with water and mud, the Holy Ghost being left out.

The majority of the pupils in the VI and VII grade contemplate having an ice cream social Thanksgiving evening. The proceeds will go to the organ fund.

The girls of the VIII grade while declining verbs the other day preferred to decline the verb frozen rather than the verb love. Ask Bernah about it.

Mr. Boegli and Mr. Mosier have each promised a gift of five dollars to the "organ fund"—making ten dollars with which to start. This with the proceeds of the ice cream social to be given on Thanksgiving evening, we hope, will be sufficient to furnish Mr. Mosier's room with an organ.

Mr. Guy Lafollett made a trip to the country on his wheel last

Wednesday with the intention of returning the following morning before school. When morning came the roads were very muddy and Mr. Lafollett, being without spurs and whip, was unable to make his mule go very fast. This made the trip long and tiresome, and Mr. Lafollett was unable to attend school on Thursday and Friday.

We would treat it not as a joke, if profanity should be practiced at school nor should it be treated as a joke, if it should be practiced on the streets or in a public house as it was a few days ago when a man stepped into the Bowling Alley Store and raised a little rumpus with the proprietor and commenced using profane language which resulted in his having to be ordered to be quiet.

Halloween night the ghosts appeared almost all over town, but especially around the school premises. A gate was taken away and the pump handle was broken. They entered the school house, probably through the key hole or through a hole in a window, and changed books from place to place so that no one knew where his or her books were. Professor Orton, especially, was minus a few books, but he thinks they have all come back by this time.

On November 14, 1902, the pupils of the IV grade, of the Prineville Public School will render the following program:

E. E. ORTON, Principal.

Spreads Like Wildfire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in twenty years." You know why? Most diseases begin in disorders of stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tone up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system, puts new life and vigor into any weak, sickly, rundown man or woman. Price, 50 cents. Sold by all druggists.

Stops the Cough and Works off the Cold.

Laxative Bromo Quinine Tablets cure a cold in one day. No Cure, No Pay. Price, 25 cents.

Effect of Reserve.

We do not hear of Montana, Utah, Colorado or California seeking to put their most promising mineral belts into a reserve. Is Oregon ahead of these great mining states, or behind? Has the brilliant idea of reserving the Blue Mountain mining district, which has hatched and nurtured in the moss west of the Cascades, pioneered the way in a phase of mining development the great producing states mentioned are yet to follow? Are Portland merchants and Willamette valley hop growers better informed on the needs of mining than men who have worked in the development of mineral resources for thirty and forty years?

Mining men, representing vast interests, are a unit in the protest entered against a reserve including a mineral belt. They have for precedent all the great mining districts of the nation. They reason from their experience, the needs of the business, and from a study of the forestry regulations. If they are compelled to appeal to government officers, in routine red-tape fashion, every time they want to timber against a cave or secure fuel, and then buy this timber at auction weeks after it is needed, perhaps months afterwards, the mining industry has poor prospects here. And above all, needed transportation will not come for years without the inducement of at least a portion of the timber.

Local and eastern men have worked here, invested large sums, acquired large interests, in prospect of future development and growth. These outsiders, of the theorist and big timber dealer order, now demanding a reserve, did not then menace the horizon. Before they are given free rein, the mining man with his millions invested, must have a hearing.

We are here; our children enter upon our possessions here as their future estate; laboriously and painfully roads have been constructed to isolated resources; miles of costly tunnels have been driven in quest of treasure vaults of the earth; stately mills with great machinery have been erected, and 7,000 people have become entwined in the destiny of the district. It is for these people to say whether they will sacrifice their interests, and also for them to pass on the real effect of a reserve. The people embraced in this belt must act, in a unit, and with all their strength, that those light-hearted ones at a distance may be made to feel and know our existence is not a mere joke.—Blue Mountain American.

ASTOUNDING DISCOVERY.

From Coopersville, Mich., comes word of a wonderful discovery of a pleasant tasting liquid that when used before retiring by any one troubled with a bad cough always insures a good night's rest. "It will soon cure the cough too," writes Mrs. S. Himelburger, "for three generations of our family have used Dr. King's New Discovery for Consumption and never found its equal for Coughs and Colds." It's an unrivaled life-saver when used for desperate lung diseases. Guaranteed bottles, 50c. and \$1.00, at all druggists. Trial bottles free.

Estray Notice.

Grizzly, Nov. 6, 1902.
Came to my place about the middle of October. One red three year old cow marked with split in right and underbit in left ear, branded big circle on right hip. Owner will please call and pay charges and remove same from my premises or the animal will be sold according to law.

Teacher Killed.

MANILA, Nov. 3.—News has been received here of the murder of J. C. Montgomery, superintendent of the schools of the islands of Negros. He was on his way to Balcolod on Friday when he was set upon by six natives and beaten and hacked to death. His body when found was so frightfully mutilated as to be almost unrecognizable. This is the first instance in the history of the island of a teacher being killed by the natives when on duty.
