

Prineville Public School Notes

CHIEF EDITOR—Guy Lafollet.

ASSISTANTS.—Lizale Ketchum, Iva Booth, Estelle Simpson, Irene Barnes, Clara Christians, Carl Hyde, Carl Hojler, Elwood Draper, Bertie Morris and Ceola Smith.

Prof. Orton wished everyone a "turkey thanksgiving" at the close of school Wednesday evening.

The pupils of Prof. Mosier's room were very busy preparing for the social Thursday evening. We are informed that it was a success financially.

The arrival of that famous library was an event of interest last week. The books are a fine lot especially Botsford's Histories of Greece and Rome of which we have 24 copies.

Because of there being but three days of school last week, items are not plentiful and several clippings have been taken from Forward, American Boy, etc. We do not intend to practice this "select" business but can not prevent it this week.

Prof. Orton departed for the desert last Wednesday evening going to Powell Buttes after school. The Prof. was armed with various kinds of shooting irons and judging from all appearances we would suggest that he will hunt a little for ducks while he is on the lonely desert and perhaps would if he were hard pressed shoot a deer in self defense.

Those who were fortunate enough to be out about 4:30 o'clock Tuesday afternoon of last week might have seen another of those falling stars or meteors which visit earth frequently. This one appeared Northeast of here and after traveling toward earth for perhaps a second when being highly illuminated, it burst leaving a cloud of smoke and myriads of glowing stars strewn in its path.

That Poet.

Weak, O Weak indeed is the school,
That cannot afford a post-fishy
Some schools have many, while others
have none,
Our school, I think, has more than one.

The number here, may not exceed three,
But you see there are others than C. O. C.
Don't think you are alone, here in the
field

The tootic pen so swiftly wield.

The peats here, you may not know 'em
For Charles, you see 'tis his first poem.
G. G. L.

The Baked Apple.

The following is translated from the German by a pupil of the IX grade:

Lafontaine had the custom to eat a baked apple every day. One day he had an occasion to leave the room and laid the apple on the mantle piece. While he was absent a friend came in the room, saw the apple and devoured it. Lafontaine returned to the room, found the apple not where he had put it and exclaimed with great excitement: "What has become of the apple which I have placed here?" "I do not know," said the other. "That is good, I am glad to hear that for I have put arsenic in it to kill the rats," said Lafontaine.—"Great God! I am poisoned," cried the guest in great fear; "send for the doctor."—"Dear friend" said Lafontaine, "be not afraid, I very well remember now, that I have forgotten to put the poison in the apple this time; but nevertheless I am sorry that it required a lie to discover the truth."

We received our books for the library last week. They were in good condition, and are a fine lot. Each and every pupil who uses them should take good care of them, so they may be good several years hence.

Teacher—Johnny, tell me the name of the tropical belt north of the equator.

Johnny—Can't, sir.

Teacher—Correct. That will do.

The lesson of combining zeal, fervor, intense enthusiasm, with broad charity and sanity—that is, the lesson that we all need to learn. The life worth living is the life of

the man who works; of the man who strives; of the man who does; of the man who, at the end, can look back and say, "I know I have faltered, I know I have stumbled, I have left undone things that should have been done, and much that I have done would better have been left undone, but as the strength was given me I strove to use it; I strove to leave the world better and not worse, because I had lived in it."—Theodore Roosevelt.

Harvard is so big that one building more or less hardly attracts any attention. But the briefest review of the material progress of the past year reveals an almost startling expansion. Six new buildings have been completed three additions made, and a part of the fence with its gates built, within that time; while one building is still in process of construction, almost finished, as is also a new addition. The aggregate cost of this enlargement of the housing space is more than a million and a quarter of dollars, and the plans for the near future purpose the erection of four other expensive buildings.

WHY IS THE DEAD SEA DEAD?
—Scientific observation justifies the estimation that a daily average of 6,500,000 tons of water is received into the Dead sea from the Jordan and other sources during the year. During the rainy season the amount is very much greater; during the dry season it is, of course very much less, but the average will be maintained year after year. There is no outlet, and the level is kept down by evaporation only, which is very rapid because of the intense heat, the dry atmosphere and the dry winds which are constantly blowing down the gorges between the mountains.

This evaporation causes a haze or mist to hang over the lake at all times, and when it is more rapid than usual, heavy clouds form and thunderstorms sometimes rage with great violence in the pocket between the cliffs, even in the dry season. A flood of rain often falls upon the surface of the sea when the sun is shining and the atmosphere is as dry as a bone half a mile from the shore. The mountains around the Dead Sea are rarely seen with distinctness because of this haze.

The waters of the Jordan, when they reach the sea, are as brown as the earth through which they flow—a thick solution of mud—but the instant they mingle with the salt water of the lake the particles of soil are precipitated and they become as clear as crystal, with an intensely green tint. Carrying so much soil and having so swift current, one would suppose that the sea would be discolored for a considerable distance, but it is not so. The discoloration is remarkably slight. The Jordan has quite a delta at its mouth, breaking into a number of streams and frequently changing its course because of the obstructions brought down by its own current.

The ice cream social given by the pupils of Mr. Mosier's room was an entire success. While we feel that the success is well due to because of our untiring efforts we are very thankful to our friends and relatives for their kind encouragement and generous assistance. Among those whom we especially thank are the following: Mr. Frank Boney, for the use of his restaurant building; Mr. Michel, for his contribution of \$2.00; Journal office, for aid; Mrs. Poindexter, for helping with the ice cream; Mrs. Dobbs, Mrs. Hodges, Mrs. Cadle, Mr. John Cadle and others, for their valuable assistance during the evening.

The following is a financial account of the social: Received for ice cream, \$38.45. Contributed; A. O. Mosier \$5.00, Mrs. Dobbs 50 cents, I. Michel \$2.00, Mrs. G. Summers \$1.00, Iva Booth 25 cents, Clarence Black 25 cents, Ralph

Poindexter 25 cents, Mr. O. Poindexter 25 cents. Paid out: for waxen 50 cents, eggs, \$1.30, salt, \$1.00, napkins, 40 cents, sugar, \$1.25, vanilla, 40 cents, expenses, \$2.25. Balance cash on hand \$40.25.

The sum of thirty dollars is needed in order to get a first class instrument. We are praying for a man like Andrew Carnegie to come to our relief. You could not give to a nobler cause than of boys and girls to obtain an education and culture. They need your help and will thank you for it. Children appreciate encouragement.

A Basket Social will be given on Friday evening, Dec. 13, 1902. The proceeds will go to the organ fund.

IN MEMORIAM.

Written in memory of Frank D. Banta, by his Aunt, Mrs. Alice Banta.

He was a kind and obedient son, a merry fun-loving brother and a generous playfellow, ever thoughtful for the welfare of others.

We thought as we looked on his face
"So pleasing for us to see,
And good in his large expressive eyes,
What the coming man would be.

The Lord has taken him away
To realms so bright and fair,
That he in his goodness
May develop His jewel there.

A precious one from us has gone,
A voice we loved is still,
A place is vacant in our home
Which never can be filled.

God in His wisdom has recalled
The boon His love had given,
And though his body molten here,
His soul is safe in Heaven.

"Now is the Appointed Time."

The O. R. & N. Co. has just issued a handsomely illustrated pamphlet entitled, "Oregon, Washington & Idaho and their resources." People in the East are anxious for information about the Pacific North West—if you will give the O. R. & N. Co. agent at Shaniko a list of names of eastern people who are likely to be interested, the booklet will be mailed free to such persons.

1000

Notice to Electric Customers.

Your attention is called to the monthly lighting rates, which will be found in the last part of Section 10, Ordinance 122, which reads as follows:

Evening until 10 p. m., .05 per candle power; evening until midnight, .06 per candle power. All night lights .08 per candle power. Residences, churches and halls special rates. Residences were given a .04 rate for this reason. They are supposed not to burn their lights only when in actual use, and in no case to burn lights all night in unoccupied rooms.

Beginning November 1st, 1902, we will charge an .08 rate on all night lights unless permission has been granted for same.

We positively will not furnish current to lights not purchased from P. L. & W. Co. Where this fraud is found to exist service will be discontinued without notice.

Syphilis thoroughly eradicated from the system without using Mercury.

EVERY MAN applying to us will receive our honest opinion of his complaint.

We will guarantee a **POSITIVE CURE** in every case we undertake, or **refund One Thousand Dollars.**

Consultation **FREE** and strictly private. **CHARGES VERY REASONABLE.** Treatment personally or by letter. Send for book, **"The Philosophy of Marriage,"** free. (A valuable book for men.)

VISIT DR. JORDAN'S Great Museum of Anatomy the finest and largest Museum of its kind in the world. Come and learn how wonderfully you are made; how to avoid sickness and disease. We are constantly adding new specimens. **CALL FOR FREE CATALOGUE** or write.
1081 Market Street, San Francisco, Cal.

Pullman Ordinary Sleepers.

The tourist travel between the east and the Pacific coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleeper, being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making coffee and tea and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths, keep the car clean, and look after the comforts and wants of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car is attached to the "Chicago-Portland Special," which goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service being nearly equal to that in the palace sleepers.

For rates and full information, including orders, write to A. L. Craig, G. P. O. B. N. Co. Portland, Ore.

A Good Cough Medicine.

From the Gazette, Toowoomba, Australia.

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. WOCKNER. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

THE DRAUGHT'S
BLACK-DRAUGHT
THE ORIGINAL
LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Draught thousands of persons have dwelt in the midst of yellow fever. Many families live in perfect health and have no other doctor than The Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901.
I have used The Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints.
Rev. A. G. LEWIS.

Thanksgiving Event

PRESENTING DISTINCTLY NEW FEATURES IN CLOTHING FOR FALL AND WINTER

THANKSGIVING, with its pleasant traditions, religious significance, and feasting, is likewise a time for dress. Usually it can be depended upon to bring with it the real winter of the North. A good time to pick out the Overcoat and Heavy Suit, and here is the best place we know of to find just what you wish. Our winter showing is unusual in many ways, but notably so in the striking styles displayed. Quality has been our watch-word so long that we presume everyone understands it.

This special offering includes a large variety of the matchless K. N. & F. garments, guaranteed by the makers and by us
