

Prineville Public School Notes

CHIEF EDITOR—G. L. LaFollet.

ASSISTANTS—Lizzie Ketchum, Lva Booth, Estelle Simpson, Irene Barnes, Chas. Christiana, Carl Hyde, Carl Holder, Elwood Draper, Harold Morris, and Ceola Smith.

George Bain has dropped out of the IV grade.

Come to the entertainment Xmas night at the M. E. Church.

We had a little snow at various times last week during which time snowballs have been a legal tender.

Mari Prine, Nellie Summers and Wilda Salomon of the V grade were absent part of last week.

Warren Yancey is still sick but is improving and we hope he will be able to come to school again in a few days.

The writing school closed on December 11. We hear that it was hardly a success, financially, yet all who took lessons seem highly pleased.

An attempt will be made to induce the wealthy Andrew Carnegie to assist in the erection and fitting of a library and gymnasium buildings upon the High School premises.

The teacher and pupils of the II and III rooms have been busy decorating for the past few days and their rooms are the very picture of beauty.

Bertine Orton, Georgia Cleek, Edith King and Richard Walker were promoted from the II to the III grade of the Prineville Public School. Keep up your good work pupils.

Nellie Ewing, Aletha Ferguson, Iola Edwards, Louise Comini, George Taylor and Kate Chambers of the IV grade were absent different times last week.

Mr. Thomas Dorgan from Michigan visited our school on Dec. 10. He says that the educational advantages are as good here as they are in his state regardless of our isolation from the railroads.

Elsewhere will be seen the address of Hon. J. N. Williamson in part. It is not a direct quotation but as nearly so as was possible to get it. This is the most distinguished guest we have had the honor of entertaining for some time. We hope he will think of us again.

Address delivered by Hon. J. N. Williamson to the pupils of the Prineville Public School, Dec. 8, 1902:

"Teachers, Boys and girls: I do not come here this morning for the purpose of speechmaking but rather to see and hear you and to join in the singing of these songs as I used to do.

While I have no talk to make I wish to ask if you ever think why you are all here with piles of books and with these teachers employed and this expensive building at your service and why there is such an expenditure for your benefit.

Here I wish to ask, how many kinds of government are there? There are two. They are Despotism and Democracy. The government of Turkey is a fair example of the one. There the government is more easily conducted by those who rule by keeping the masses in ignorance there being no public school system supported by the government, while the United States is an illustration of the other; public schools being necessary and essential in order to preserve the government.

To illustrate the importance of a good education I relate the following story:

There once was a man in South Dakota who, accidentally or otherwise was sent to the legislature.

This gentleman being of an ignorant nature felt highly honored over his position and being situated in an ignorant neighborhood was looked upon by others as an important man and was called upon to settle all questions of vital importance as naming the babies, etc., etc. There was a gentleman

who had received a letter from a friend in Kansas. The letter explained that corn was not plentiful because of many immigrants coming into the country and devouring it.

At the word immigrant the gentleman faltered. He could not grasp its meaning. He decided to call upon the distinguished citizen for assistance which he did. That worthy gentleman not caring to expose his ignorance, explained after some hesitation, that he had thought much upon the subject and had found that an immigrant was a cross between a possum and a coon. At least the animal was very fond of corn.

If there is any one fact that impresses itself upon my mind more than another here this morning it is that time is flying. It has been but a few years since I held some of you upon my knee but now I would not like to hold some of you.

I will now tell you a little story of time speeding: The incident referred to is of a Shakespearian club which was giving a banquet at which the topic whether Shakespeare wrote all his works or whether Lord Bacon wrote some of them, was being discussed.

Now, men at banquets sometimes get in a shameful condition, they drink champagne to excess and one fellow who was in this condition sat listening while another was explaining that he knew Shakespeare wrote those works. "What do you know about it?" the first man asked. "Me? Why, I was there and saw him." "Why man that was 300 years ago." "Was it? How time flies!"

Now I will not take any more of your time I could easily talk for an hour; in fact I have just commenced.

As I work, if there is a school in Oregon, in the United States, yes, or in the World, that my mind is close to it is this one because you are the children of my association and I believe you will develop into useful and honest citizens.

It is important that the school room should be well ventilated. The lungs should have fresh air at every inspiration. If we neglect this rule concerning the necessity of fresh air and breathe the same air over and over again, we will soon feel the bad effects of it. Every person breathes on an average about 330 cubic inches of air at a single breath. In a room where there are 25 or 30 pupils the whole day long, the amount of air that is expelled from the lungs every minute is great and requires a continuous renewing of the air in the room so as to have fresh air to breathe. In many cases the ill health, the pale cheeks and faded looks of a person, are due to bad ventilation. Seeing the importance of pure air, everybody should be interested in his or her welfare in school or elsewhere, and help to see that the room wherein they are, is well ventilated.

If a camera would write one's deeds both good and bad upon the forehead when a picture was taken, I am afraid the photographers would starve.

The basket social given last Friday night was a great success. The fourth room now has an excellent new organ. Everyone is well pleased with the instrument. The girls and boys of Prineville deserve great credit for their untiring efforts in this enterprise. We wish to thank the trustees and members of the Union church for the use of their building. We also thank Mr. Frank Bonney and the proprietors of the Comini's restaurant for their generous aid. Hon. M. R. Biggs, for the manner of his words and deeds, has the sincere thanks of all who are concerned in school work.

We took in \$58.80; our expenses were as follows: Lights, 50 cents; cleaning Comini's restaurant, \$1.00 paper of pins, 5 cents; cleared, \$57.25. Total fund from both socials \$98.20.

The members of the M. E. church are preparing to give a social in the near future. There will be exercises at the church and a social time and house warming at the new parsonage afterwards.

A marriage license was granted Tuesday to Numa McCoin and Miss Kate E. Morrow. It is presumed that before the ink is dry on this issue of the Journal that these estimable young people will have had the words pronounced that will make or mar their future happiness. The best wishes of their many friends will go with them wherever they may be and the Journal unites in wishing them happiness, joy and prosperity in their new life.

The local land office is busy today with all sorts of business. A number of Minneapolis people are making proof on timber lands, but the most interesting part of their duties is to inquire into the validity of the claims of numerous homesteaders who located in the Forest Reserve before the promulgation of the proclamation of the president, July 1, 1901. The point of inquiry hinges on whether or not the necessary residence and cultivation was made before the proclamation was given out. Chas. H. Reed represents the homesteaders while the government's interests are being cared for by Supt. S. B. Ormsby, of the forest reserve. The defendants all reside in the Dufur, Boyd and Ramsay neighborhood.—Dalles Chronicle.

A Good Cough Medicine.

[From the Gazette, Toowoomba, Australia.]

I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months, and it has effected a cure. I have great pleasure in recommending it.—W. C. WOCKNER. This is the opinion of one of our oldest and most respected residents, and has been voluntarily given in good faith that others may try the remedy and be benefited, as was Mr. Wockner. This remedy is sold by all druggists.

Food Changed to Poison.

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles. Only 25c at Adamson & Winnek.

M. A. Lehman, bookkeeper at the Derham saw mill, was in town last Saturday. Mr. Lehman informs us that this will be his last trip into town in the interest of the saw mill, as he has resigned his position there, and will leave for Prineville within a few days. Mr. Lehman's many friends at this place will regret to see him leave this neighborhood.—Ashwood Prospector.

Notice to Electric Customers.

Your attention is called to the monthly lighting rates, which will be found in the last part of Section 19, Ordinance 122, which reads as follows:

Evening until 10 p. m., .05 per candle power; evening until midnight, .06 per candle power. All night lights .08 per candle power. Residences, churches and halls special rates. Residences were given a .04 rate for this reason. They are supposed not to burn their lights only when in actual use, and in no case to burn lights all night in unoccupied rooms.

Beginning November 1st, 1902, we will charge an .08 rate on all night lights unless permission has been granted for same.

We positively will not furnish current to lights not purchased from P. L. & W. Co. Where this fraud is found to exist service will be discontinued without notice.

CASH ONLY!

NOT A RELIEF BUT A CURE

Dr. C. A. Ferrin,
Helena, Mont., Oct. 4, 1902.
I wish to thank you for my relief. I was suffering agonies from piles and was taking morphine to relieve me when, on the advice of a friend, I procured a bottle of your Ferrin Pile Specific and took a tablet at night and another in the morning. At half past twelve, noon, my wife gave me another table spoonful, when my pain all stopped. In two days I was able to attend my regular business entirely relieved. It was simply wonderful.
Julius Meyerhofer, Furrier, Helena.

Christmas Event

PRESENTING DISTINCTLY NEW FEATURES IN CLOTHING FOR FALL AND WINTER

CHRISTMAS, with its pleasant traditions, religious significance, and feasting, is likewise a time for dress. Usually it can be depended upon to bring with it the real winter of the North. A good time to pick out the Overcoat and Heavy Suit, and here is the best place we know of to find just what you wish. Our winter showing is unusual in many ways, but notably so in the striking styles displayed. Quality has been our watch-word so long that we presume everyone understands it.

This special offering includes a large variety of the matchless K. N. & F. garments, guaranteed by the makers and by us
