The newest post office in Crook county was commissioned April 1st, and is named Madras. It is situated on the Columbia Southern survey at the townsite of Palmain and is in charge of J. P. Hahn. Hay Creek is the distributing point for all mails.

The Ochoco Planing Mill Company expect to have their mill in operation by next Wednesday. The engine and boiler needed was ordered from the east instead of from Portland as had been expected, and this caused quite a delay as the company has a number of rush orders. They have secured an engine from C. E. McDowell to do the work until their new one of 40 horse power arrives.

Miss Grace Belknap formerly of our city, is located in San Jose with her parents Mr. and Mrs. H. P. Belknap, and is studying music in the San Jose conservatory of music. This institution is one of the best in the country and Miss Grace will doubtless be a finished musician, when her Prineville friends see her again.

J. B. Cornett and W. J. Schmidt, the Summit Prairie stockmen were in our city Tuesday en route to Sherrers Bridge on the Deschutes, where they will deliver 43 head of beef cattle. They sold to Woods Bros., of The Dalles, and got \$4.60 per cwt., which is one of the best prices recorded so far this season.

The Firemen held a meeting on last Tuesday evening. The subject of uniforms was considered, and after considerable discussion it was decided to appoint and empower a committee to buy suitable uniforms in the near future. A drill was ordered for Company No. 1, for Saturday afternoon 4:30.

Roy Howard a former Crook county boy won first honors and a gold medal in the local contest, and is to represent the Agricultural College Prohibition Association in a state contest of the organization, to be held at Dallas, May 1. His subject was: "Come, Let Us Reason Together."

The Prineville public schools are preparing an excellent program to be given May 15th. This date will be the last day of school, and our scholars from each room are being trained for the program. Outside talent will also take part and the public are assured of an excellent entertainment. A small admission will be charged, and the receipts will be applied on the library fund.

Dr. H. P. Belknap received word Sunday from the Belknap mining property, at Prairie City, Grant County, to the effect that a 12 foot vein of ore had been encountered, and that it contained values of from \$5 to \$100. The small mill owned by the company is in active operation turning out lumber for development work while a 10-stamp quartz mill has been contracted for, to be installed not later than July 1st. These reports show that work in the mine is being pushed right along and the indications point to a permanent proposition that will carry fortunes to those holding stock.

Upon inquiring of D. F. Stewart, principal owner of the Prineville Flouring Mills we are informed that his machinery is shut down and has been for some time owing to a shortage in grain, and that the supply is at least 10,000 bushels short of the local demand. In view of this fact and also that the time is not far distant when the demand will be far in excess of what it now is, why don't the Crook county farmers take steps toward developing the grain acreage? Surely there is money in raising wheat at a price that is said to average 75 cents per bushel. There is no country more productive of good sound grain than our county, and instead of having a shortage in our home markets, we should have grain and lots of it, for export.

The Rabbit Hunt.

The rabbit hunt Sunday was participated in by five of our local marksmen and as a result Dr. C. A. Cline is once more the proud possessor of the gold medal, and an accompanying brand smile. The honors were wrested from W. W. Bay, who has had the medal in his possession twice. As this is also the Doctor's second time to possess it the competition is consequently brisk and the next try out will probably witness a very close and exciting contest. The contestants and the number killed are as follows: Dr. C. A. Cline 140, W. W. Bay 132, J. H. Templeton 125, L. W. Spear 72, and John Elliott 70. Those who know that the work of all was very good especially that of Messrs. Bay and Templeton, who worked very hard but encountered poor territory for rabbits

New Spring Goods
