Mrs. C. I. Winnek announces to the members of the Presbyterian Sunday school that they may get their literature at the Winnek Drug store by calling on Sunday between 10 and 11:30 a. m.

J. L. Luckey and wife, Mrs. Bonney and little son and John Luckey returned Tuesday by private conveyance from Shaniko. They have been visiting for two weeks past at Portland and other valley points.

C. Sam Smith accompanied by his family left Saturday for Portland. Mrs. Smith and the children will visit friends and relatives for some time, while Mr. Smith goes down to consummate a business deal.

John Steidl returned Tuesday from Portland, and other valley points. While away he purchased two turbine wheels, each of 60 horsepower. They will be used by the Deschutes Lumber Company in the operation of their plant.

There are two sheepshearing crews at work in our county at present. O'Kelley's, who is now at T. H. Lakoff's, and K. O. at Col. Nye's. Shearing is much later this year than usual owing to the lateness of the season.

Assessor B. F. Johnson returned Wednesday from the Paulina and Beaver Creek countries, and reports having finished his official work there. He leaves Monday for Black Butte, where he will set valuations on property.

Floyd Rowell, formerly the junior partner in the firm of Morris & Rowell, is back again behind the counter in J. F. Morris' store. Mrs. Rowell will be down from Upper Crooked River in a few days and they will spend the summer in town.

Sam Collins returned last week from the eastern part of the county, where he went with a party of timber folks for the purpose of inspecting the timber and other resources of that section. They report a pleasant trip, though they encountered some snow.

The Journal Job Office finished last week a neat 30-page catalogue for J. W. Boone, which will be mailed to his many patrons in the near future. Mr. Boone is a rustic in the harness and saddle line, and is gradually building up a good trade.

Dr. H. P. Belknap left Monday for Grant county, where he goes for a two week's stay at the Belknap mine near Prairie City. He will then return and engage again in the active practice of his profession.

Alex Smith of Sisters, who recently dissolved partnership with his brother Robert, is having erected a new store building, in which he will carry a complete stock of general merchandise. This will make two good trading places in Sisters.

Last Saturday was a marked improvement in a business way over any previous day for some time past, and the goodly number of teams and wagons and outside folk was a welcome sight. Business is on the mend in our little city and a few days more will see Prineville her old self again.

S. D. Percival left Monday for Paisley, where he goes to conduct the Chewaucan Post for Wm. Holder. Mr. Percival has been employed in Journal Office for a month past, and is a competent young newspaper man, having previously conducted the Shaniko Leader.

Hon. J. N. Williamson is expected in Prineville about June 10th, and will spend two weeks in this section visiting old friends and attending to his business interests. The latter part of this week will be spent by him in making speeches for Binger Hermann down in Southwest Oregon.

B. F. Shepherd, of Fife, was in the city Tuesday on business. Mr. Shepherd reports the horse rhodero about finished and the bucharos have moved to the Desert country. The cattle rhodero will commence about June 1st, and the stock will be delivered on about the 7th. Twenty-five bucharos will ride at the cattle rhodero.

W. A. Bell was employed Monday and Tuesday on the contest case of Peter H. Mabin vs. Rosecoe Knox. Mr. Mabin's contention is that the timber claim of Mr. Knox is more valuable for agricultural purposes than for its timber.

Robert Smith spent Tuesday and Wednesday in the city. He is on the Deschutes at the present with his family. He reports the timber business good, and says that most of the Deschutes people find time to angle some for trout, which are biting good.

W. A. Booth expects to leave the first of the week for Lakeview, where he will be joined by his brother R. A. Booth, of the Booth-Kelley lumbering firm, and party. Together they will look over the Military Wagon Road Grant, and this will take Mr. Booth away for the coming summer and fall.

Reports from Silver Lake are to the effect that timber seekers are arriving daily, but that nearly all come in by way of Lakeview. There's a chance for the Crook County locators to make more of an effort to induce these people to go into that section by way of Prineville, as this is surely the most feasible route.

John Spencer, the cattleman left Wednesday for the desert, on a horse-riding trip. He wants to have his band of horses ready for shipment during the first week in June, and will ship them from Shaniko over the O. R. & N. to Spokane; thence to Astoria and Vancouver, Canada, by way of the Great Northern.

Thomas O'Connell and W. A. Bell met with an accident while out on the McKay last Thursday, with a crowd of prospective timber locators, that resulted in painful injuries to Mr. O'Connell, while Mr. Bell was uninjured. In driving along a hill, the seat broke, precipitating Mr. O'Connell into a thicket of brush, and he received a badly scratched and bruised face besides a sprained arm. The injuries while painful are not serious.

A. M. Drake of the Pilot Butte Development Company was in the city Wednesday. Mr. Drake says that his Company will soon move their saw mill from Bend to a point about four miles above that place for the purpose of cutting the timber necessary for their big flume. A good many additions have been made lately to the machinery of the mill, and when in working order, it will turn out 20,000 feet or more of lumber.

The Deschutes Mercantile Company commenced Tuesday the erection of a new two-story store building 30 by 60. The building will be situated just across the street from the Pilot Butte Inn, and will be occupied by a brand new up-to-date stock of general merchandise. The Deschutes Mercantile Company was incorporated Tuesday with a capital stock of \$10,000, and will be under the management of A. H. Grant, who is at present acting as assistant postmaster in our city.

Mrs. Naomi Salomon suffered the loss of 35 young "fry" chickens Saturday night, when some careless person in turning the water in their ditch from the main ditch back of the Salomon, Johnson & Co. Store, raised the head gate too high and caused a flood in Mrs. Salomon's back yard. The chickens were in coops and were powerless to escape from the high water. People should be careful in handling head gates as such work inflicts very unnecessary damage on others.

A note is on foot among the residents of the district, to build a common school house some time during the summer, on the farm of Ward Crum about half way between his residence and S. R. Slayton's.

The residents of Lower Ochoco need such a building, as at the present time it is about nine miles to the first school house after leaving Prineville traveling up the Ochoco.

A Bad Bargain.

B. O. Skewis, of Portland, but formerly of Sioux City, Iowa, arrived in our city Tuesday for the purpose of inspecting what had been represented to him as a great big "gold" brick. It seems that during the recent excitement caused by the raise of the price of state school lands, Mr. Skewis contracted the "fever" and at the urgent request of some land sharks, who by the way, he paid \$100 per quarter section for their trouble, he purchased a section of school land. This section lies six miles southeast of town and is about as poor a piece of waste land as can be found in the county. Together with the advance payments charged by the state this piece has cost Mr. Skewis \$500 besides his expenses in coming here. Besides this, the land is mortgaged to the state for the remainder of the purchase price, which mortgage we do not think will ever be lifted.

While Mr. Skewis is most unfortunate in his purchase, and is to be sympathized with, still, he should have known that Prineville has several reliable hand locators, who are familiar with every foot of ground in the county, who could not only have prevented his loss by being killed by outside sharks, but could have located him on any amount of land, that is of good value. However, he is only one of many, who have made the mistake of buying land in Eastern Oregon without seeing it or getting reliable information concerning it.

Married.

In Corvallis last Wednesday, James D. Zurcher of Enterprise, Oregon, and Miss Edith Howard, formerly of Prineville.

The marriage was solemnized at the home of the bride's parents, Mr. and Mrs. J. W. Howard and the nuptial knot was tied by Mrs. Humbert of the Corvallis Christian church. Mrs. Zurcher's old friend, Miss Una Stewart of our city, acted as bridesmaid, while Elmer Willis was the best man. A wedding breakfast was participated in by the guests, shortly after which Mr. and Mrs. Zurcher left for their home at Enterprise where Mr. Zurcher is engaged in the electric light business. Mrs. Zurcher has a host of friends in Crook county who wish the happy young couple bon voyage over life's seas.

At the home of Mrs. Naomi Salomon, O. M. Pringle and Miss Jennie Hoover.

Mr. Pringle is one of Crook county's best known residents while Miss Hoover is a niece of G. T. Hoover, of Rye Grass and is lately from the East. They have many friends with whom the Journal joins in best wishes.

Mrs. John McTaggart, the milliner, will have a special sale Friday and Saturday, to which all the ladies of Prineville and vicinity are cordially invited. This sale includes some very pretty things just received.

A Sheepshearing Contest.

W. W. Ray, of Wurzweiler & Thomson's store will undertake to earn a \$100 wager next Sunday by shearing 30 sheep at Col. Nye's ranch. The parties wagering with Mr. Ray are among the city's best known sportsmen, and the event will be watched with interest. Mr. Ray has not performed a day's manual labor for 20 years, and if he earns the \$100, he will likely know that he has been in the game. A sore back and wrist will perhaps be his symptoms next Monday, but he is a true sport and deserves to walk away with the prize.

Good Building Stone Found.

Rev. R. L. Alter, pastor of the Presbyterian church, has been engaged for a week past on a still hunt for a good quality of building stone to be used in the erection of the new church for his denomination, and has succeeded in locating a good quality of stone, in unlimited amount on the Birdsong place on Johnson creek about five miles above town. The stone is of nearly the same identical quality as that used in the construction of the Oregonian building in Portland, and can be quarried easily. It is probable that steps will be taken in the near future to open this place up and make the stone available for building purposes in our city.

A Railroad Party Coming.

A party of railroad men, composed of A. L. Mohler of the O. R. & N. Co., E. E. Lytle of the Columbia Southern and T. B. Wilcox, representing the commercial bodies of Portland, and several other gentlemen, will be in our section in a few days. The objective point is Deschutes, and the motive of the visit is to look into the merits of the 100-mile extension of the Columbia Southern. Mr. Mohler represents the Harriman interests, and it is said that the latter's action in favor of the extension will depend upon Mr. Mohler's report. It is interesting to note that their investigation will in all probability bring them to our city and east of us. While in our locality the party can rest assured of being given every encouragement possible by the business interests.

Conditions Down Crooked River.

A trip of a few miles down Crooked river at this time will convince the most skeptical that the season is at least a month behind this year. The alfalfa fields are just beginning to look green and are only as far advanced as they were in April last year, but the past few days seem to have been better adapted to the growth of this grass than before as it shows signs of making a good crop now. A considerable area of new ground has been seeded this season and will be ready to yield good returns next year. There is an abundance of water for irrigation and it is to be deplored that the season is so backward for it if it was warmer there would be enough surplus hay to make amends for the shortage last winter. The fall sown rye needs rain badly and if it does not come soon the crop will be short although that seen near the road has a good healthy color and is growing as well or better than any other crop. Considerable improvement is being made on the county roads, yet there is room for more. New ditches are being taken out of the river and a large area of good land will be brought under irrigation this summer that has heretofore been dry waste.
