Fire Meeting.

Fire Company Number One met at their hall Monday evening and among other business, elected new officers. George Cyrus was elected foreman, Ora Parker assistant and M. E. Brink 2d assistant. P. B. Doak was elected presiding officer for the fire meetings, O. C. Gray, secretary and J. W. Boone, treasurer. The company voted to have a dance on the Fourth, both in the afternoon and evening, whether or not our citizens are probable, and in that case the fire ladders will make a hit. They have ordered their new suits, the order leaving Tuesday, and the way the boys look won't be slow.

Five new members were voted in. The new officers desire a full attendance to all meetings and drills.

Some Sound Arguments.

It is a fine art to produce a piano that possesses all the desirable qualities and none of the poor ones. It involves the assembling of the right woods, metals, felts and leathers, and the proper seasoning, shaping and proportioning of them, the exact proportioning of the thick-nesses of the sounding board to give it the proper resonance, the right tempering and winding of the steel strings to give them the finest tone, the nicest adjustment of the action, and we might justly say millions of other matters of minute detail.

Now, if the sound of a piano possesses all the desirable qualities, follows of course that it has been properly constructed. Such a piano is a gem. It will be as much satisfaction to you 20 years hence as it is now.

Come in and let us explain to you the construction of our instruments, and their sound qualities. Ours are the very finest made, and include such perfectly constructed pianos as the Weber of New York, the Chickering of Boston and the Kimball of Chicago. Pianos whose sound qualities are not equalled the world over and many other sterling makers not so high priced.

Our business footing, too, is on a sound basis. We sell at small margin of profit and on the lowest payments and easiest terms of any piano store on the Coast.

You will find it greatly to your advantage to make your piano purchase here. Eilers Piano House.

The largest, lowest price piano concern on the coast. Large store, Washington street, corner Park Portland, Ore. No. 653 Market street, San Francisco, Cal. No. 605 Sprague Avenue, Spokane, Wash. 9th and J. streets, Sacramento, Cal. Call on us or write for circulars.

The stock is all subscribed and owned equally by the four incorporators and an eastern party. The building is in course of erection and by July 1st the Company expects to have their store in running order. A. H. Grant, who was formerly manager of the Hay Creek store will have charge of enterprise, and his genial manner will meet with his old time success.

A Gun Accident.

In front of Culver Saturday D. F. Stewart met with an accident which though painful is not serious. The party was indulging in rabbit shooting and Mr. Stewart in getting into the carriage with a loaded gun struck the trigger against the seat, exploding the cartridge. The ball passed through his left hand, but luckily broke no bones. In its course it narrowly missed Wm. Holder.

Sheep Sale.

J. J. Enos, of Sacramento, California, has been in our vicinity for a week past, during which time he has paraded 5000 head of mutton sheep, principally from Col. Nye and Steve Yancy. He paid \$2 for yearlings and \$2.00 for two-year-olds, and will leave with his band about the 10th ult, and will drive south, to near Sacramento, where they will be fed for the winter market. He says that he finds Crook County sheep in good condition.

Road Improvements.

That part of the Prineville-Shaniko wagon road situated in Crook county will soon be greatly improved, as the county court has taken up the matter and will authorize work to commence next week under the supervision of Wm. Wigle. This is a step in the right direction, as the Wasco citizens took the matter up last winter and have done considerable work on their end of the road, and we are informed that they intend doing more in the near future.

Dropped Dead.

Frank Hart who was the first nurse in charge of the recent smallpox cases in our city, dropped dead in Baker City one day last week from heart disease. At the time of his death he was wearing a suit of clothes from Simpson & Wilson's in one of the pockets of which was found a letter from the boys, who were confined in the pest house here when he was a nurse. He left here about two months ago, and since his death it has been discovered that he was wanted in Seattle, Washington, for a theft of \$2000. The \$2000 theft was made while he was acting as agent for the New York Life Insurance Company at Valdez, Alaska, and during his sojourn in Baker City, he claimed to be an insurance man from Portland.

The Glistening Eye Again.

Wm. Holder made a trip to the Haystack country Friday to deliver in behalf of the Prineville citizens, a request to the railroad party, to visit our city and to assure them of a hearty welcome while in our vicinity. Bill always was a great diplomat, and his polished manner will doubtless make a great impression on Messrs. Kohler, Lytle, Wilcox and party.

To say that he is representing the sentiment of our city is putting it mildly. Really, we all love Bill and are extremely proud of his accomplishments, and further, we consider ourselves fortunate indeed in having his talents at Prineville's service. Through an oversight the Prineville brass band failed to turn out upon his return to play "See the Conquering Hero come."

City Council Meeting.

The city council met Tuesday at their hall in regular session for the first time in two months. Mayor M. E. Brink, Councilmen C. M. Elkins, J. W. Boone, C. J. Johnson, D. F. Stewart and Fred Lehman were present with Councilman Fred W. Wilson absent. The minutes of the previous meeting were read and approved. The resignation of M. R. Biggs as city recorder was read and upon motion laid upon the table. Petition for the appointment of Wm. Wigle as city recorder was laid upon the table, no vacancy existing. Bills for current expenses read and referred to the finance committee. Bills pertaining to expenses incurred during the recent smallpox epidemic were read and referred to the finance committee and the county court.

The committee on streets and public property reported water fumes constructed and in running order on First and Third streets, which report was approved. The finance committee met Wednesday afternoon with the county court to consider the bills incurred in the care of the recent smallpox cases. This expense was to be shared equally by the county and city. The council will probably meet Thursday evening at the call of the mayor and audit bills and claims.

Stray Notice.

Came to my place on Hay Creek, one grey horse, weight about 1100 pounds, brand JR on left shoulder and left hip. About 7 years old. The owner can recover horse by paying for the notice and pasture bill. R. PARNELL, June 1st 1903.

A Small Blaze.

Last Friday morning at about 1 o'clock, the fire bell rang an alarm and investigation on the part of the firemen showed Mrs. Dora Lyons' recently built chicken house to be the burning building. It being late when the alarm was sounded, the building a cheap structure, burned to the ground. The origin of the fire is unknown.

The County High School.

The County High School Board composed of Judge Biggs, County Commissioner Mark Powell, School Superintendent Hoegl and County Treasurer Bell, met Saturday and took up the matter of securing a suitable building for the High School. After some discussion it was unanimously agreed to build a modern four room brick building with a stone basement and trimmings, and J. B. Shipp was asked to make an estimate on the cost. The matter of the location was postponed until another meeting. Bids for the new building will be advertised for in the near future. Another grade will be added to the present course and perhaps two, but this matter will be left by the High School Board entirely in the hands of the principal. It is their wish, however, that every improvement be made that the conditions justify, and next school year will see our city with well an equipped school as can be found in the state.

The next thing to be reckoned with will be the material for the school and as Crook County students have made names for themselves in other schools, there is no reason why they should not do so at home, and they will.

Not only Prineville but every school district in the county has a creditable number of bright young students, who will find their way through the High School authorized at the last election.
