Simpson, who is bathing there to be much improved in health as a result.

Judge W. C. Wills, of Grizzly was a business visitor in our city the first of the week. In conversation with the Judge, who is a member of the Crook county cattlemen's committee selected to arbitrate range differences, we learn that his views on the Governor's proclamation concerning range troubles were a little condemnatory. He believes the local authorities more than able to cope with any difficulty that may arise, and stamps the Governor's tender of aid, as a little previous.

Sheriff C. Sam Smith has some interesting things to tell of his trip to the land of the Northern lights, and has brought back some interesting curios characteristic of that country. He has pictures of most everything up there from the gigantic Walrus, to the Esquimaux helle. The Nome City views show a substantially built town, and are quite a contrast to the general reports given of that place. One of Mr. Smith's prettiest curios is a crib board made from a Walrus tusk, which shows the Esquimaux to be no novice at the art of engraving and drawing.

J. D. Combs took his departure yesterday for Pendleton with a band of 200 head of beef cattle, where he will turn over the band to an agent of Frye-Bruhn & Co., of Seattle, to which point they will be shipped. He was not able to secure the number of beef cattle as was expected, for the reason that the cattle growers generally held for higher prices. He paid \$27.50 for dry cows and says that the Chicago market indicates a decline in price of cattle to such an extent that lower prices are likely to prevail in the future.—Blue Mountain Eagle.

A party of several Idaho timber people returned Tuesday from the timber. They came back without locating owing to the establishing of the Warner Mountain Reserve. Among the party was B. L. French, of Moscow, state representative, who is much impressed with our country, and intends staying in our section until he succeeds in landing one of our valuable timber claims. L. E. Allingham was in charge of the party, and his wild goose chase has embittered him against Uncle Sam's ruthless way of creating forest reserves. Low thinks he should at least notify a person before they start for the timber.

George E. Morley arrived Tuesday to take the management of the city's electric light and water system, relieving C. L. Shattuck,

who has resigned to accept a position at Prineville. Mr. Morley, who formerly held a responsible position with the Portland General Electric Company, is much pleased with the country, and is somewhat surprised at finding a plant, such as Prineville has, in a town of this size. We are indebted to him for charging batteries connected with our gasoline engine.

The Pacific Land and Livestock Company, of San Francisco, which has operated so extensively in our sister county of Harney for years past, has decided that for the good of the range in that county, they will drive nearly all their cattle to their California alfalfa fields. It is too bad that they could not have come to that conclusion years ago, when such an action would have resulted beneficially. Now, as a result of their overstocking they are forced to abandon the Harney range and drive to their California alfalfa fields. However, the smaller stockmen who shared these ranges with the company unfortunately have no California alfalfa fields to which to drive.

While this paper is always perfectly willing to publish eard of thanks when its subscribers desire, at the same time it is a practice which we have often disapproved and our sentiments are voiced by the Pendleton Tribune, which says: "Now and then someone desires to express through a newspaper his heartfelt thanks to his friends for sympathy in his hour of bereavement. Of course his thankfulness is 'heartfelt' and he feels his sorrow heavily, but he should avoid making a public exhibition of either. It is in bad taste to say the least. Besides gratitude conveyed through cold type is never suitably expressed. If the persons to whom thanks are due cannot be seen personally a letter to each one is small enough consideration. The newspaper columns is not the place to parade one's grief. It should be too sacred for public gaze."

MARRIED.
HILL-SEVERN—In this city last Sunday, at the residence of the brides parents Mr. and Mrs. John Circles, Miss Bessie Severn to Albert Hill. Rev. R. L. Alter officiating. The Journal extends congratulations.

DIED.
In this city last Monday at noon, Kenneth, the two year old son of Mr. and Mrs. P. B. Doak. The little fellow had an attack of scarlet fever, which had been mild in appearance but its treacherous character was manifested in after effect, which caused his death after he had appeared convalescent. The bereaved parents have the sympathy of all in their grief. Funeral services were conducted from the residence at 2 p. m. Tuesday, by Rev. O. W. Triplett, of the Baptist church.

DIED.
Mrs. Geo. Aldrich died Tuesday evening at Powell Buttes at the home of her son-in-law, Joe Elliott. At the time of her death she was alone and immediately upon word being brought to town, Coroner J. H. Crooks went out to Powell Buttes, where he empanelled a jury. They decided that her death had been caused by heart trouble. Funeral services will be held today at 2 p. m. from the residence of Mrs. Swalley.

Sheep Shot On Horseheaven.
A sheepshooting scrape is reported to have occurred on upper Horseheaven last Monday afternoon in which Dan Hagerty, an Antelope sheepman lost from 75 to 100 sheep, all yearling ewes. The report states that while over the dead line, seven armed men approached the herder, and told him to turn his back and make tracks. He didn't wait for a second command but immediately took the tall timber. The party then did the shooting with the above results.

A New Forest Reserve.
It is reported that the Government has set aside the south half of townships 17, range 19, 18, range 20, and 19, range 21, and the north half of township 18, range 19, township 18, range 20, and township 18, range 21. In all, three townships and situated in central Crook county, embracing the Maury mountains from Newsum creek to the Mutton mountains. The Government's police regarding timber reserves is clearly defined by establishing reserves all over the state, and this action together with "scrapers" has about finished the timber locating.
