They have two steam threshers, each with a crew of 25 men, busily employed. Wheat and rye crops are short, but there will be a larger yield of oats than ever before. This is because of an increased acreage however.

Mrs. Glenn says that she will take a small bunch of cattle to that northern country, with which she will test the merits of the climate, and if all passes off nicely this winter she will transfer her holdings to that country.

D. P. Row has been appointed U. S. Commissioner and is now prepared to attend to all kinds of Land or Notarial business at Madras Post office in the Willow Creek Basin.

There have been no bids submitted on the county high school building. It is not often that a \$12,000 structure goes begging for want of bids, but it seems that that is the case with our proposed structure, apparently because of our isolated situation, and lack of knowledge among outside contractors regarding the conditions here. It is probable that bids will be advertised for again.

Parties knowing themselves indebted to A. H. Lippman or A. H. Lippman & Co. must settle. Lippman charged and collected on all accounts.

Last Friday afternoon the building back of Wurzweller & Thompson's store was moved around the block and back to a place where it will do duty as an oil house. It required 12 horses besides quite a force of men to do the work, and was watched by quite a crowd of bystanders. This old building has quite a history, having been used for years as our city calaboose, and could it talk could doubtless tell some interesting stories.

The Alturas Plasterer says the Barlow show lake has received a coating from all the papers along the line of travel. They are lakes of the rarest description and should not be patronized by the public any more.—Silver Lake Bulletin.

That's right. They are just a little the bestest outfit that ever struck this town, and what a night they drew a good house Tuesday night. They will leave our little city with some good coin, for which they gave absolutely nothing in return. They are simply a crowd of doubtless.

Seasoned rustic and flooring can be found only at A. H. Lippman & Co.

Attempted Suicide.

W. H. Doak, who returned Friday evening from a trip south with the Wakefield band of sheep, attempted suicide Saturday morning by taking morphine at the Hotel Poindexter in this city. Dr. Rosenberg was quickly summoned and administered antidotes that proved effective, and the unfortunate man was soon able to be around. It seems that Mr. Doak, who is an upright young man, has long been a sufferer of stomach troubles, which caused despondency and an attempt to end his life.

A Constant Annoyance.

While the little town of Deschutes is complaining of a cougar's screech bothering them of late, we've been putting up with a callopie arrangement that blows three times a day and would put a band of cougars to shame when it comes to noise—good, clean, shrill noise that chases up and down your spinal column and reverberates through every nerve center of your body. That is if you're inclined to be nervous. It also disturbs religious meetings, lodge meetings, wakes, babies, and disturbs the sick. If they still manufacture whistles of disagreeable tone, bring the worst around and we'll back ours against 'em all.

Woolgrowers' Meeting.

The state convention of the woolgrowers' association will be held in Baker City September 14-15. Many important and vital subjects will come before the convention, and it is the desire of the woolgrowers to make the coming meeting one of the most memorable in the history of the organization.

There are eight woolgrowers' organizations in Oregon, and the delegates are appointed on the basis of one each 30,000, head of sheep owned by the membership of a local. There being about 3,000,000 sheep in the territory represented by the eight organizations, the total number of delegates entitled to seats would be 100.

Prineville Baseball Team to Play Antelope.

Prineville's baseball team composed of our best players has accepted Antelope's challenge for a series of games at the latter town to be played on the 11th, 12th and 13th ult. during the meeting of Antelope racing association. The purpose for the events are \$50 for each day, and we predict that when our Johannes come march log home the \$150 will be on their inside pockets. Now what's the matter with Antelope keeping up the good work and playing a return match when we have our races? If they will want revenge, it would be a good way to get it or it may be that they will be the victors in the first meet and will come to our town just to "rub it in." However, if the later is the case they will at least know they've been in a game.

Dixie Mine Disaster.

Just as we go to press word is received of a serious accident in the Dixie Meadows mine. By the premature discharge of a blast, two men, Wyl Howell and Willis Puett, were knocked down and badly mangled.

A miner relates that at 2 o'clock Wednesday morning the crew sleeping in the bunkhouse were awakened by Willis Puett, calling them to run to the mine quickly, as Wyl Howell was killed. Although badly wounded he well be accompanied then back to the long tunnel, where they found the injured miner had crawled. He was lying on the dump, his face an indistinguishable mass of blood and torn flesh. It was thought that the tongue was protruding from a wound in the cheek, but it is probable they saw only strips of flesh.

Dr. Belknap was phoned for and immediately left for the mines.—Blue Mountain Eagle.

A Cattleman Talks.

Geo. Ray, one of Crook county's substantial stockmen, was down from his ranch on Lost creek, the lower part of the week and reports his cattle in good condition for wintering. He has purchased an ample supply of hay to feed through the winter. Mr. Ray is of the opinion that Crook county has been materially damaged by the broadened circulation of high prices for hay, from the fact that outside cattle buyers are not offering as much for local cattle as the facts in the case warrant. The prevailing idea that hay will be \$10 or higher, has caused a depressing effect on prices of all Eastern Oregon cattle and the effects will be lasting. Many of the hay raisers who have heretofore made a neat sum from the sale of their hay to cattlemen will find that they have killed the goose that laid the golden egg by holding out for extreme higher prices, for all the surplus cattle in the county will be sold and only those kept for which the raiser can provide forage for on his premises without buying any from the outside. So don't many who are now holding out for \$10 hay will be glad to take much less before they make a sale.

Prineville School Commences Next Monday.

Prineville Public Schools will commence next Monday with all teachers present, and a larger enrollment than ever before. Besides the five public school teachers Prof. A. C. Strange will teach the high school branches in the room next the Postoffice formerly occupied by A. H. Lippman as a store room. An outline of the coming year's work will appear in our next issue. Interest regarding all branches of education is rapidly increasing in our county, and Crook will in the not far distant future line up with other Oregon counties in things mental. In the past it has been necessary to send the children to other counties for higher and even preparatory work, but in the future with a well equipped building, and an efficient corps of teachers it will not be necessary, and Crook county people, should not only from a standpoint of economy but county loyalty as well, send their children where they pay their taxes and then contribute their part towards building up an enterprise that will be a credit to our county. Tax money is not all that's necessary for a high school building, however costly, can be nothing but a monument to an empty case, if our citizens should continue to send their children to out side schools.
