A New Comer Criticizes the County Court's \$120 Donation.

Haystack, Sept. 13, 1903.

Editor Crook County Journal:—I notice in your issue of September 10, in your published statement of the county court proceedings, that the court ordered a warrant drawn as a county donation to the Crook county fair of the fall of 1903 in the sum of \$150. Now we people down here did not know that the court was authorized by law to appropriate money for such purposes; inasmuch as we are informed that there is no fair this year other than the race meet of the Prinerville Jockey Club we take it that the appropriation is intended to assist the club in having a big blow-out and in general good time on that occasion.

Down here we are not much on the horse race but are a set of plain farmers. Even if the sum appropriated was intended to promote the display of agricultural exhibits it seems to us that if an appropriation to promote agriculture is really the purpose; an appropriation that would make it possible for us to have the agricultural products to exhibit would be more in line as a source of expenditure of the surplus cash on hand. The rabbits are digging out our largest potatoes and destroying the best products of our land. The coyotes are pushing their nose into our largest water melons and eating out the heart, and when they make a raid upon our chicken roosts they invariably select the latest and largest out of the brood raised from our imporation of the improved breeds. Then again if we had more and more convenient water our stock would do better and we would have more time to devote in giving thought to the best manner of procedure to produce the greatest amount of the best quality of all kinds of farm produce whether it be live-stock or production of the soil direct.

Of course we know that the county has, by careful management of the proceeding court, been brought out of debt and the county has now cash to spend. The court should do the fair thing while the money is going. Now for instance the Baptists at Prinerville are contemplating building a new church and need funds to carry out their very laudable enterprise, and a few hundred dollars would help them materially. The Presbyterians are about to let a contract for a new building and ought to have an organ to put in the same when completed. Now the Universalist can take out his share by attending the horse races and as he doesn't believe there is any hell he ought to be satisfied.

This appropriation we look upon as being equivalent to the appropriation of one hundred dollars by Judge Booth's court to defray the expenses of two well known attorneys while attending the irrigation congress at Portland. They went. The congress was born and made one long wall that was heard all over Oregon, and from the noise everybody thought it was very much alive and would live on and on until it had completed its purpose and then die for want of a subject upon which to feed. The long wall was all. It died. Its mother had been effected by a certain act of the Oregon legislature—a defective law making it impossible for the embryo to recover itself sufficient to live to a proper.

New Comer.
