At present the piles have been put in place on the east bank and the "driving" is now being carried on next to the grade. It is expected that the steel truss will arrive from Shaniko inside of the next few days.

It was a bad day's shoot. Excuses of course are plentiful. What with poor horses, poorer drivers, and the rankest kind of weather and scarcity of rabbits and dampened powder and sore shoulders and rough ground and, and, and—why, it's no wonder that there were not many mule ears killed.

The score: Elliott, 86; Bay, 81; Hooper, 64; Templeton, 61; Spears, 49; Nichols, 35. Henry Grinn acted as referee and counted the corpses.

Prineville's Bank a Substantial Institution.

The report of the First National Bank of this city printed in the last issue of The Journal shows some sound resources centered in our local institution, for which any town might well be proud. The deposits also speak volumes for the prosperous conditions and confidence of the local people in the bank's management which, needless to say, is sound as a dollar.

The Journal has no hesitation in saying that the local bank's resources exceed those of any bank in any town of its size in the state, and its financial rating is correspondingly high. In fact but few of the banks in the inland towns show deposits to exceed more than one-third that of our local institution.

Rev. Z. W. Commerford returned Monday from Portland where he went to meet his wife who has just come from their former home in Wisconsin.

Postmaster Summers is Still Soozing.

An amusing incident is said to have happened some time ago to Postmaster Summers that is not too old to bear telling. It's about snuff.

It seems that one of our late additions to Prineville's population, who by the way, came from a southern state, contracted in his early youth the habit of using snuff. Upon arriving here with the habit, he found that the demand for the article did not warrant its being carried in stock by the local merchants, and failing to control his appetite, he sent to his home state for a fresh supply.

The wrapping around the latter was strong enough to stand the entire journey except the stage ride which landed it in this city. In consequence the mail sack was very liberally sprinkled with the fine grained fragrant weed, and when Postmaster Summers opened the sack he was taken with a violent fit of sneezing. When his good wife went to investigate the cause she also sneezed, and the storm was soon augmented by the nasal explosions of their assistant. It took some time to probe the matter to an understanding, but Mr. Summers went at it with a sponge over his face, and when he found the source of the trouble it is said he used a gallon of perfume and his whole supply of small pox disinfectants to relieve the situation—and himself.

The party to whom the package was consigned is said to have also commenced sneezing when he heard of his loss and is still keeping up the performance. Moral: It's a wise nose that recognizes snuff in plenty of time.

Christmas Rush Has Begun.

From the present date to the 28th of this month is the time that the postoffices throughout the county are compelled to work overtime in the interests of Santa Claus.

The Prineville office is not an exception to the general rule, and Postmaster Summers says the effects of buying Christmas presents is already felt here. The number of mail sacks

has increased and will continue to do so until two or three days before New Year's. During Christmas week the office in this city will handle from 12 to 18 sacks daily and the late purchases and delayed mail will keep up the rush for three days following.

The Postmaster states that he is preparing now to handle this additional quantity of Uncle Sam's mutton, and requests that all the patrons of the postoffice do as much of their business, originating during the holidays, the coming week or as early as possible before Christmas so as to avoid the delays which are often necessary when the mail matter is left until the last minute and then crowded in for handling.

Judging from the present rate of increase, the office here will have its hands full Christmas week for the Christmas purchasers in outside points gives evidence of being unusually heavy this season. Santa Claus, evidently, will find his way into every home in Prineville this year.

John Elliott Wins The Cline Medal at the Rabbit Shoot.

There were several mutes in the eyes of the Prineville hunters last Sunday when they went down to Rye Grass to put the jacks off the face of the earth. John Elliott laid claim to the Cline medal with a score of 81 long-ears and the six hunters altogether slaughtered 376.

It was a bad day's shoot. Excuses of course are plentiful. What with poor horses, poorer drivers, and the rankest kind of weather and scarcity

of rabbits and dampened powder and sore shoulders and rough ground and, and, and—why, it's no wonder that there were not many mule ears killed.

The score: Elliott, 86; Bay, 81; Hooper, 64; Templeton, 61; Spears, 49; Nichols, 35. Henry Grinn acted as referee and counted the corpses.

Restaurant Business Sold.

J. R. Hellrich of Lamonta this week purchased O'Neill Bros. oyster house and has entered into the active management of the business. E. F. Boggs, who formerly managed the business, sold it to the new proprietor and has gone to Portland to engage in business there.

The restaurant which has changed hands was opened about four months ago and since that time has enjoyed a liberal patronage which has made it a paying business. Mr. Hellrich is well known here and will no doubt experience the same success as his predecessor.

The Prevaricators Get Together.

The Prineville branch of the A. O. P. (Ancient Order of Prevaricators) which meets alternately at different places around town, but whose last meeting place was held at the Stage company's office a few days ago, was regaled on the latter occasion by some marvelous stories.

One member had owned a shepherd dog that had bayed a deer for five days and when found had worn a circular path around the deer which was so deep that just the back of the canine was visible.

Another had a dog which ran a bear into a cave, over near Belknap Springs during the early fall, and when the owner accidentally stumbled upon the pair in the spring they had settled all difficulties and were sleeping nose to nose.

A Haystacker told of how a rabbit had climbed a 12 foot haystack of rye and thus escaped a pack of hounds. The truth of this story was vouches for.

The event of the evening, however, came when a Prinevillian, who has often rendezvoused on the desert for a hunt, told how a dog of his had been spayed for hunting purposes.

The animal in question, a grey hound had started a deer and soon its speed was terrific. Presently the deer, which was losing ground, made a sudden turn around a big juniper tree. The dog instinctively turned with the deer, but did not notice the tree and struck it fairly in the center.

So great was his impetus that from his natural self he was changed to a greyhound 10 feet high and 12 inches in length. The Prinevillian was then
