The Deschutes Irrigation & Power company has been laying in its winter supply of hay during the past ten days. Large quantities in the vicinity of Prineville have been purchased, the company agreeing to take the hay in the stack. About 1000 tons have been purchased from ranchers near town, the average price paid being in the neighborhood of \$7.50 per ton.

Work on the Great Southern is progressing with all possible speed. Of the 20 miles between the Cushing place and Dufur 17 miles are graded and ready for the ties. On the six miles between The Dalles and Cushing no grading has been done, but work on this stretch will be commenced soon. The company expects to have the road from here to Dufur completed in time to move this season's crop.—Dalles Mountaineer.

During the fire here last Friday night an excited young lady kept yelling in the way of James Guerin who was handling the hose. He told her if she did not keep back he would turn the hose on her. She blushing replied: "Say, Mister, if you will let me be I will turn them myself when I get home. I was so badly excited when I heard the fire alarm I didn't notice which way I was putting them on."—Myrtle Point Enterprise.

The provisions of the Williamson bill for the settlement of the claims of the Sherman county farmers, is now being put into operation and C. S. Special Agent Thomas B. Neuhansen, who has charge of the claims in the over lap district, spent two days this week in Moro, and vicinity. The object of Mr. Neuhansen's trip is to make preliminary arrangements for the inspection and appraising of the lands and improvements involved. He will be in Moro from the 20th to the 30th of this month, says The Observer, for the purpose of taking affidavits of parties in interest.

Two different freighting outfits, each with trailers, loaded with lumber, were stuck in the mud at the Ochoco bridge for several hours Tuesday morning. The first wagons, which were drawn by six horses, went down in the sand and an additional team failed to extricate the load until two hours had been spent changing the horses to the positions where they would pull the most. A second freighter missed his two wagons down just back of the first team which was just in the mud about half way across the stream. It took four more horses to pull out this load to the opposite bank after the forward freighting team had reached dry land.

Max Wdrweller returned Sunday from a two week's visit in Portland.

A. L. and C. J. Goodwillie were business visitors from Bend the first of the week.

Andrew Morrow was in the city from Friday the first of the week attending to business matters. Mr. Morrow stated that several cattle buyers had recently been in that vicinity, but the prices offered were too low to induce anyone to sell. The average price offered for cows and calves was \$10.

FISHING TACKLE

Before Buying Your Outfit for the Season Have a look at that Line at D. P. Adamson's.

Considerable interest is being taken in the mineral deposits in the vicinity of Crook, E. M. Aldrich, a Spokane mining engineer, who came here about two weeks ago, has been there during the past ten days in company with John Stann and says he found some very promising gold prospects. He has made a thorough examination of the formation in that district and quite a number of claims have been staked off. It is expected that he will return from there this week when more definite information can be learned.

Price-Miller Nuptials.

Roy Price and Miss Frances Miller, daughter of Mr. and Mrs. R. P. Miller, were united in marriage at 7 o'clock Wednesday evening at the home of the bride's parents, County Judge W. A. Bell performing the ceremony.

Both the bride and groom are well known Crook county young people who have a wide acquaintance, and a host of friends and acquaintances extend their best wishes. The young couple will make their future home in this vicinity.

Notice to Creditors.

N. E. HODGES.

Announcement.

I wish to announce that I have opened a new store in the building formerly occupied by Mrs. Wiegand, the photographer. My entire stock of millinery goods will be sold out at 50 cents on the dollar, or I will dispose of the stock to one person at the same discount.

Mrs. Ed Bradford.

Loss Is \$50,000.

In speaking of the Mitchell flood of last week, the News of that place says:

"In looking over the ruins it seems almost impossible how fragile things could escape being broken, while all kinds of machinery were twisted and bent in all kinds of shapes. Cogs were stripped off and the wheels polished as if done by an emery wheel. Immediately after the water had run down the hotels and dwellings were thrown open to all those without food and shelter. Reconstruction has already commenced, but owing to the scarcity of labor and timber little progress can be made at the present time."

The News gives an itemized list of the losses resulting from the flood which totals up to \$50,000. Those whose losses amount to \$2000 or over are as follows: J. W. Carroll, \$2500; Mrs. O. S. Boardman, \$2000; W. L. Campbell, Jr., \$1500; Holms & Hartwig, \$3000; A. B. Campbell, \$2000; E. T. Folston, \$2000; M. Fritz, \$2500; Gillenwater & Proffit, \$5000. Altogether 37 homes, business places and ranches were damaged by the high water. The bodies of Mrs. Bethune and Mr. Smith have not as yet been recovered.

Timber Land to be Taxed Higher.

Reports from Shasta and Siskiyou counties in California, says the Klamath Republican, are to the effect that an increased valuation will be placed on timber lands by the assessors in these counties. The land will be valued at from \$5 to \$8.50 per acre, according to its proximity to the railroad.

The Republican further says:

"All timber land in Klamath county is now assessed at \$5 an acre, irrespective of location or valuation. This is really all timber land in this county will stand at present, as a too high tax will discourage investors. We can never expect the development of our timber resources unless we attract interest capital. There is at present practically no market for our millions of feet of timber as it is unproductive, so its value is a thing of the future. Therefore our county should be careful not to place a restrictive tax on the timber lands until a market develops, when the valuation should be made according to the location, quality and quantity of timber on the land."

Gratifying Increase in Local Postoffice Business.

Postmaster Summers this week sent in his quarterly report of the Prineville office for the three months ending June 30. The report shows a gratifying increase in the business transacted over that of the corresponding period of last year.

The sale of postage stamps during the three months amounted to \$861.30, and the total receipts from all sources made a total of \$1069.16. The number of money orders issued amounted to 147, representing \$8124. The latter shows more plainly than any other portion of the report the growth experienced in the local office and the increase in money orders is greatly in excess of that of the business transacted at this time last year or for any other preceding year. A year ago there were only two money order offices in the county while at the present time there are no less than a half a dozen, yet the funds handled at the Prineville office are rapidly increasing.

Stage Robbers Seen At Ontario.

The Whitney Canyon stage robbers have been heard from again. The city Marshal of Payette, Idaho, took a couple of shots at them. They returned the fire and retreated to the woods unhurt. The Ontario Argus says: "At Payette, last week when officer Thompson went to the train he found a number of hobos on the train two of whom answered the description of the stage robbers. He ordered them to halt but they refused. After he had told them several times to stop one of the hobos drew his gun and shot three times at the officer. The officer returned the fire, but did not hurt the men. They made off toward the timber and the officer was unable to overtake them.

After the robbery the two men disappeared as if the earth had swallowed them. Later they were discovered, armed to the teeth, making their way across the county to the east."

Many Dews.

This part of the county experienced the worst storm in its history commencing Sunday evening and continuing for two days. There was a strong wind blowing from the west and with it came torrents of rain, and at some points fell to a depth of five inches. Camp creek was visited by a small cloud burst which carried away about 10 tons of hay which was in wind rows on the Wiley ranch. The creek overflowed its banks at the Larson ranch washing away the stumps which were used in carrying water over the creek. Haylay is completely checked at present.

Miss Ethel Morris closed her school Friday at the Beaver creek district and is now at home.

Samuel Lytle returned Friday from a business trip to Shastiko. He reports the roads to be in a very bad condition for freighting.
