B. Gormley has moved his stock of tailor goods into the building formerly occupied by the People's Co-operative Mercantile company. The new stock of goods he is receiving having grown too large for the old quarters.

A Washington county Me., editor writes: "One of our newly married young ladies kneads bread with her gloves on. The editor of this paper needs bread with his shoes on; he needs it with his pants on, and unless the delinquent readers of this old rag of freedom pay up soon we will need bread without a darn thing on."

Roark and Daily have filled their ice house and have a sufficient quantity to last them during the entire summer. The firm put up about 150 tons and are well pleased with the quality which they were able to cut. Most of the other ice houses in the city have been filled to their fullest capacity. D. P. Adamson has stored a large amount for use next summer in his soda fountain and John Geiger has put up enough of the congealed fluid to reduce the temperature around the brewery during the heat of the coming summer.

The city began work the last of the week above the Ochoco bridge in an effort to change the channel of the river and prevent a washing of the banks in case of high water again this spring. Piling has been set in place for a distance of several rods along the south bank and thoroughly banked so that the space intervening between the posts and the south bank can be filled. With this work completed a new inlet was cut above the wing in order to let the water wash out a new bed. The stream now runs in a direct line down the center of the channel and will have no excuse this spring of damaging property on either side.

British Columbia Land and Oil Company of The Dalles is the name of a company whose head office will be in The Dalles and articles of incorporation were filed in the clerk's office and forwarded to the secretary of state today. The incorporators are leading citizens of our town—F. S. Gunning, C. W. Emerson and Ed. Kurtz. Capital stock of the company is \$75,000, divided into 1,500,000 shares at 25 cents each. They now have 7049 acres of oil fields in British Columbia and option on 3200 acres more. Their object is to develop these lands; operative oil wells, build railroads, carry on all kinds of promotion business, etc. Operations will be carried on at headquarters here in The Dalles.—Dalles Chronicle.

Everything is now working in fine shape at the Dixie Meadows. The mine which was closed last week on account of the freeze-up resumed operations on Tuesday, when the mill was again started to crushing ore. On Tuesday the shifts were doubled and work is now progressing both night and day both underground and in the mill. The mine is running with a force of seventeen men which will probably be all that will be employed until further development work is commenced, then it will be necessary to increase the force. At the present time no work is being done in this direction, nor is the work necessary as there is plenty of ore in sight to supply the mill for several years. Working in an upraise on a lower level last week, a new vein was uncovered, ore from which has proven of good value after being put through the mill. The vein is six feet wide and assays across it shows an average of \$100 per ton.—Prairie City Miner.

### The Week's Weather.

Crook county can thrust itself head and shoulders above the Eastern states when it comes to a comparison of weather records as can even run rose covered Portland a merry chase for honors. Last Friday, with the mercury standing at 99, was the warmest day during the month, and it was on that same day that the East was swept from the Rocky mountains to the Atlantic coast by one of the worst blizzards recorded in years. A Chinook wind blowing here at the time caused the unusually mild weather although days of this kind are common during the winter months. A glance at the accompanying figures shows a remarkable contrast with the temperatures of zero and many digits below which are the order of the day in the less favored section lying in the East. The maximum temperatures during the week are as follows:

Thursday	Max Temp.	56
Friday	"	69
Saturday	"	45
Sunday	"	46
Monday	"	36
Tuesday	"	33
Wednesday	"	31

The records above were taken at 1 o'clock in the afternoon of the days mentioned. Only three nights during the past week has it been cold enough in the city to freeze.

### Startling But True.

People the world over were horrified on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. WILCOX, Logan, New York. Sold by D. P. Adamson & Co.
