The substance found, Mr. Barnett says, will burn like coal oil even in the crude state in which it is found. Local thermometers recorded temperatures ranging from 8 to 14 below zero two nights last week, and house plants and other things of delicate nature in consequence looked a little the worse for wear. The cold weather of last week, which continued until the first of this, had its back broken a couple of days ago and life is again worth living. The sunshine and warm air at mid day is a gentle reminder of the near approach of spring which, however, is likely to take its own time about getting here for keeps.

Startling But True.

People the world over were horrified on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have wardied it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. WILCOX, Logan, New York. Sold by D. P. Adamson & Co.

Bert Wilson and Gus Collins, of Albany, have leased the S. E. Hodges' livery and feed stable and will conduct the business in the future under the firm name of Collins and Wilson. The lease has been made out for one year.

From present indications the Firemen's Ball, which will be given in Athletic hall next Tuesday evening, will have a very large attendance. The first day that the tickets were out for sale this week between fifty and seventy-five were disposed of with the assurance that many more would still be sold.

Earl McLaughlin was over from Tetherow's bridge this week getting a supply of tools and supplies for the White Rock Irrigation company. He stated that work was progressing satisfactorily on the ditch lines and that as soon as spring weather permitted the present force of workmen would be greatly increased.

C. D. Swanson was in the city today from his Powell Buttes ranch. Mr. Swanson is one of the recent settlers in that portion of the county and has one of the best quarter sections of land in that vicinity. He expects soon to have the whole tract in cultivation and will devote most of the acreage to the production of wheat.

The only thing against which complaint could have been made at the club smoker and High Jinks at the Athletic hall last Saturday night was the dense clouds of smoke that rolled upward from several scores of Missouri meerschaums. But no one seemed to offer objection and a very pleasant social evening was spent by those who attended. An informal program of musical numbers was enjoyed immensely and contributed largely to the pleasure of the evening. At a late hour steaming hot coffee and a dozen varieties of cake and sandwiches, which had been generously prepared by the members of the Ladies Annex, were served.
