Said the groceryman to the butcherman, says an exchange: "It is really a sin that you buy your salt on the whole sale plan and don't give me a chance to handle the tin." Then hid him back to the grocery store and quickly an order sent for a few choice hams for the family use and a box of fish for Lent. Said the clothing man to the hardware man: "You certainly don't do right when you got a suit of an eastern house with my big stock in sight." But the clothier wanted a new steel range, and it came as his neighbors know, in a box that he tried to hide in the barn and marked Gee, Hawbuck & Co. The business men then called a meeting to see where the trouble lay, and they all agreed 'twas the editor and not the devil to pay. Why don't he roast the department stores and the peddling fakirs and stand by them who patronize him and give him his daily bread. So they drew up a contract long and strong for the editor to pursue, and waited on him with aspect grim, as he solemnly dug for news, but the editor laughed a big horse laugh, till the gang all took to the woods, for 'twas written on axle grease letter-heads that came with a bill of goods.

The 15 horse-power gasoline engine at the Carey Foster ranch pumped 1600 gallons of water a minute in the test given it Monday by N. L. Tooker, of the Fairbanks-Morse Company. The flow is sufficient to thoroughly irrigate the 300 acres lying below the ditch, although only a small part of this acreage will be in alfalfa this year. Mr. Foster will find it necessary to run the engine but two or three days out of the week.

Two hundred carloads of sheep have already been shipped from Shaniko since the opening of the shearing season, and at least 125 carloads more are under engagement. Shipments to date are somewhat larger than last season, and, as the prices are satisfactory and the wool recently removed from the backs of the sheep sold at the highest average price received for several years, the industry is in a most flourishing condition. The encroachments of the farmers have cut down the range for sheep, but the gross receipts from the industry this year are larger than ever before.—Oregonian.
