**Bright's Disease And Diabetes**  
We desire to place in the hands of those afflicted with Bright's Disease and Diabetes a 36-page pamphlet that is saving human lives. It is not an ordinary pamphlet, such as is commonly used to advertise medicines, but is principally made up of reports of scientifically conducted tests in a large variety of cases, showing 87 per cent of recoveries in these hitherto incurable diseases.

This pamphlet employed in these tests are known as the Fulton Compounds and the results obtained prove conclusively that these dreaded diseases so long fatal (the deaths from Bright's Disease alone are appalling, over 100,000 a year, starting as kidney troubles) have at last yielded to medical science. The pamphlet is free. Write to the John J. Fulton Co., 409 Washington street, San Francisco, Cal.

When to suspect Bright's Disease:—Puffy ankles or hands; weakness without apparent cause, kidney trouble after third month; frequent urination, (may show sediment or cloudy on standing); falling vision; day drowsiness—one or more of these.

Examinations for Forest Rangers.

Forest supervisor, Aschoff, writing The Journal from Marmot, Oregon, advises that civil service examinations for the position of Forest Ranger in the Forest Service, department of Agriculture, will be held in Prineville, August 1 to 3, 1905.
