W. D. Walker, of Ashwood was, transacting business in Prineville Monday. The pumps had been working for the past two months on the property making ready for the inspection of the prospective buyers who were at Ashwood last week and looked the matter over. Recently however, the pumps and pipes in the mine have been taken out and this lends Ashwood people to believe that the sale was not made.

James C. Loneragan, buyer for Fry Bruh Co., of Seattle, is authority for the statement that a new era in cattle and stock industry has started in the northwest. The change lies in the fact that the growers of the northwest are now no longer shipping their stock east, but are getting prices in Portland and Seattle which induce them to sell here instead of the east. For some time past the northwest has been unable to supply the demand in Portland and Seattle, and Mr. Loneragan has just returned from a six month's trip through the cattle districts of California, during which time he bought 3000 head of cattle and 45,000 head of sheep, all of which was shipped to Seattle. Most of the buying was done in the San Joaquin Valley and in the country near Red Bluff. Four per cent of the San Joaquin Valley cattle were condemned by government inspectors as suffering from tuberculosis, but nearly all of the animals bought near Red Bluff were in fit condition.—John Day News.

Our new bridge is fast nearing completion.

A petition is being circulated for a new road from Cline Falls to Prineville.

D. E. Hegdriekson of the Prineville Flouring Mills Company, brought in a load of flour for Meredith Bros. on Wednesday.

It is said that the "pen is mightier than the sword," but Heney's sword was mighty enough to put the Prineville papers out of business last week.

J. A. Hawkins and wife made a trip to Prineville last Saturday. Mr. Hawkins, wife and sister Enola, expect to make a trip to the Willamette Valley in the near future.

Work on the new hotel at this place is progressing nicely and Mr. B. F. Chase, its proprietor, will be in position to furnish the traveling public with first-class accommodations shortly.

J. W. Blesoe, of Prineville, was in town on Wednesday taking views of our beautiful waterfalls and other points of interest in this neighborhood. These views are being taken to form an exhibit at the Lewis and Clark Exposition. This kind of work ought to bring good results.

Madras Pioneer

W. F. Hammer, postmaster at Haystack, was in the city on business Tuesday. He is erecting a new residence on the site of the one which was burned recently.

Miss Ada Craig was mail carrier to Madras yesterday. John Lockard the former carrier, whose leg was broken near the hip July 3, will be laid up for an indefinite period.

Don P. Ren, manager, and N. W. Tyler, chauffeur for the Central Oregon Transportation Co., went to Portland on Monday to bring out the new auto that the company recently ordered.

Mr. Mills, livestock agent of the O. R. & N. Co., spent a couple of days in Madras and vicinity last week looking over the country for the purpose of furnishing information as to the probable freight business to be derived from this section. He departed last Friday morning, going south.

James C. Stoner was in town Wednesday on business and called at The Pioneer office. Mr. Stoner says a portion of his crop is good this year and it is his observation that grain sown in December or January will make a surer and better crop than grain later in the Spring. Winter sowing gives the grain an opportunity to form a long, healthy root and is then more able to appropriate the moisture that falls in the spring months, insuring a long stem and well-filled heads, while grain planted in the Spring develops only a short root, many times has to contend with a dry season and what rain does fall soon sinks below the depth of the roots, they deriving only a slight benefit, with the result that the grain makes a short stem and the heads are poorly filled.

The water question has been taken up by the business men of Madras and another well is being put down just south of Mr. Isham's which is expected to relieve a shortage of water during the summer months. The well when completed will be over eight feet in diameter at the bottom and will be sunk as deep as the flowing in of the water will allow. A new pump has been ordered which will lift over 300 gallons per hour, and it will be installed as soon as it arrives. The wells already in town have furnished plenty of water in ordinary seasons, but the hot weather of the last two weeks has greatly increased the amount of water used on the plains around Madras, so that very near every day for the past two weeks there has been from eight to 20 wagons waiting for water from early morning to late in the evening. This move of the citizens is to be commended and it is hoped their effort to relieve the water situation will be realized.

The price of admission to the fair grounds in the evening has been reduced, by a provision whereby the purchaser of a fifty-cent admission ticket receives with his ticket coupons which admit him to twenty-five cents worth of shows on the Trall. The arrangement is proving popular. The change was made because it was thought that the fifty-cent charge which merely permitted the visitor to the grounds was unreasonable, since the exhibits palaces are not kept open in the evenings.

For a Weak Digestion.

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial. Thousands have been benefited by their use. They only cost a quarter. For sale by D. P. Adamson.
