Columbia river men predict that November of this year will see that stream at the lowest stage in its history. There is not much water between the locks and The Dalles now, and if the water continues to fall navigation will become difficult later on. Oregon is now 10.39 inches short of the usual rainfall, measuring from Sept. 1st, 1904. For the first time since 1861 (44 years), the water in Fraser river has dropped so that the bars in the stream are exposed and miners are working them. The Columbia is fed under similar conditions and it is reasonable to suppose that the results will be the same. One great benefit of low water will be the opportunity afforded to blast troublesome rocks that hinder navigation opposite Biggs. But before the red tape can be manipulated high water will again run its course.—More Observer.

The board of directors of the Central Oregon Agricultural and Live Stock association held a meeting Tuesday afternoon at which it was decided not to hold a county fair this fall as was at first intended. The land trials in Portland, the continued heavy attendance from this section of the country at the Lewis and Clark exposition, and the fact that many of the stock holders have not as yet paid their assessments, were given as reasons why it would be impracticable to attempt to hold an exhibit. Mr. Lafollett stated Tuesday after the meeting that with the assessments paid, the association would be on a sound financial basis with funds enough on hand to erect all the buildings necessary. He expressed regret that the fair could not be held, but believed that next year a double effort would be made to make the county exposition a success.

### Slide of the Pen

Only recently this paper ran a "lost" ad concerning a "tan colored lady's cape" nor has the editor been horse whipped as yet.

It has not been very long since a child in Ashland was gored by a cow. A local contemporary in chronicling the event made the startling statement that the child received serious injuries "at the hands of the family cow."

Exchanges are full of such journalistic oddities. The following are again going the rounds.

The Chinaman fell down and broke his leg above the optimum joint.

The steamer Mary Ellen was burned to the water's edge this morning and every soul on board drowned except the chambermaid who saved herself by swimming ashore. She was loaded with pig iron and insured for \$4,000.

### Temporary Certificates.

Now that the regular examination is past and those who have not a valid certificate for this county must fall back on a permit if they teach, it might be of benefit to such to know the following law and rules governing the granting of permits:

1. Permits granted without written examination: Provided that such permit may be granted without a written examination to the holder of the certificate, valid in any county in the state, who is entitled to the same or to a holder of a certificate valid in any other state when the applicant for the same shall present satisfactory testimonials of his good character and success as a teacher. Div. C. Par. 7, Sec. 20 P 22, Oregon School Law.

Notice the above law reads "Certificate valid;" an expired certificate is not a valid certificate. No permits will be granted upon expired certificates hereafter, unless lately expired.

2. Not more than one permit will be granted on the same certificate; i. e., if one permit is granted on a certificate from another county another permit will not be granted without applicants first passing a written examination, either regular or special.

3. Permits granted upon passing written examination. But no permit shall be issued to any person not coming within the provisions of this proviso except on a written examination equivalent to that required for a third grade certificate. P. 22, Oregon School Law.

(a) The applicant must be 18 years of age and of good moral character.

(b) Must make an average of 75 per cent and not fall below 60 per cent in any one branch.

(c) No one having failed at the last regular examination in any county in the state will be allowed a permit.

(d) No one will be allowed to take examination for a permit who has not a school engaged.

(e) Any grade certified to by the State Superintendent that applicant has received during the 18 months preceding will be accepted in lieu of an examination in any branch where grade is not less than that required for a permit.

(f) Regular fees for permit, \$2.50. C. B. DRINWIDDE, County Superintendent.

### A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by D. P. Adamson.
