Heavy clouds of smoke, which have hung over the city and surrounding country for a week past, indicate the extent of the destruction which fire is doing in the timbered belts of the Cascades. Saturday night the haze was thick enough to obscure the sun. The atmosphere was slightly cleared Sunday afternoon by a sprinkle of rain which was evidently heavier in the western part of the county than it was here.

Mr. and Mrs. Frank Hackney and daughter, of John Day, left Tuesday morning for their home after a visit of several days with relatives in the city. Mrs. Hackney, who was Miss Mollie Woods before her marriage, is a granddaughter of Mrs. Mary E. Vanderpool, and was formerly a resident of Prineville. The longest dry spell in the history of Crook county during the past dozen or more years was broken the first of the week by a series of heavy rain storms which continued several days. The deep dust, which has been life's bugbear for several months past, has finally been put out of commission, and the country generally is much refreshed by the moisture although coming too late to benefit the county's production of grain and dry land hay. The rain this week was the first which has fallen since the last of June and the first heavy storm since about the first of June, the dry weather continuing uninterrupted for a period of nearly 14 weeks.

Don't forget the closing out sale at J. F. Morris', for the way they are selling it will not last long. Your special attention is called to the sale of buggies as having a large lot of them on hand a big cut in prices has been made to close them out, also a small reduction on the Schuttler wagon which is sold at a very small profit. Owing to the excellent material used in this wagon it is valued for its superior strength, great endurance, light build and light draft, all of which make it one of the most satisfactory wagons that can be bought.

C. M. Elkins returned the first of the week from Lookout mountain where the new cinnabar mine is now complete and ready to handle the ore. The first good ore will be burned next week. A jack screw, which was holding up the east end of the Review building, while sills were being placed underneath preparatory to moving the building to its new location, took a notion to get away from its burden yesterday and in consequence the building went down with a hard jolt. All the glass in the front of the office was smashed by the sudden descent, but the occupants were saved any injury except from a momentary fright. The building is being moved in order to make room for the new Prineville hotel which will occupy a half block on the east side of Main street.

Dr. A. A. Burris, of Hillsboro, who has been spending some time in the region of Christmas lake, about 25 miles southeast of Silver Lake, where he has been locating desert and homestead claims, returned to this city Wednesday. Dr. Burris stated that many settlers were taking up the land in that vicinity which lies in one immense level tract. Water is easily attained at a depth of five to 30 feet and the district is fast coming to the front as an ideal homestead section. The new settlers who have taken up land there are building their homes and clearing their tracts ready for cultivation. Many of them have come from the Willamette valley to this portion of Eastern Oregon. Dr. Burris left this morning for Hillsboro and will return to Lake County in a few weeks accompanied by a dozen St. Louis residents, who are coming west to try their luck with some of Uncle Sam's fast disappearing domain.

A band of 200 head of Grant county cattle for feeders have been contracted for delivery at Ontario on October 1. These will be gathered from the ranges of the South Fork country and are the property of Brown & Somerville, H. H. Trowbridge, John Laycock, Jr., Dave Magill and other stockmen of the Lake country. The price for which the cattle were contracted was \$2.75 per hundred weight, the cattle to be weighed at Ontario. This is a slight increase over the prices offered for feeders or beef a few weeks since and is an indication that the cattle market has an upward tendency. Heretofore the large bands of cattle from southwestern Grant county have been driven to Pendleton and were fed on Butter creek. This year a large number of head will be fed in Malheur county where alfalfa hay can be bought in large quantities from \$3 to \$4 per ton.—Canyon City Eagle.

Public Schools Open Monday.

It is the earnest desire of the board of teachers that every one desiring to attend the public schools of Prineville be present and at his place promptly on Monday morning, September 18, the day set by the board of directors for the opening of the schools. Will the parents see to it that their children are at their places the first day that they may take up the work for the year at the beginning of the term?

We know you are interested in the education of your children and desire them to use the best means to this end. Please urge them to be present and let them feel that you are really interested in their work and the success of the school and their success and advancement.

We are anticipating a profitable and successful term. Let parents and teachers and pupils be united and work in harmony for the success and welfare of the schools. This, loyally and cheerfully done, success is assured. We take up the work with confidence and hopefulness believing that success will crown our labors.

Our school was not a failure last term. We graduated from the 8th grade one of the largest, if not the largest, class in the state, with a splendid and unexcelled record of averages.

Our educational exhibit at the Lewis and Clark fair will compare favorably with the exhibits of the leading counties of the state, not in quantity, but in quality in the real work of the different grades.

We ought to feel proud of our schools. Let us go forward and strive one and all for greater success. Our school will be what we make it and we can make it second to none in the state. Let's work with that end in view. The public schools are the safe guards of the American people, the beacon lights of American civilization.

We shall be pleased to see the parents and friends of the school present at the opening. Remember the date.

Yours faithfully,
R. A. Ford,
Principal.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by D. P. Adamson.
