No one ever doubted that Crook county can produce and is producing nearly every variety of edibles, but it has been left for Assessor LaFollett while taking the industrial census of the county to discover that along with an inexhaustible list of things to eat there is one precinct where tobacco is raised. Cherry Creek holds the proud distinction of being the only district in the county where the weed is grown, and the industry there is only in its infancy as the total production last year was only 75 pounds.

Don't forget the closing out sale at J. F. Morris', for the way they are selling it will not last long. Many thousands of dollars worth of goods, including Dry Goods, Groceries, Wagons, Buggies and Hacks are included in the sale. Your special attention is called to the sale of buggies as having a large lot of them on hand a big cut in prices has been made to close them out, also a small reduction on the Schlutter wagon which is sold at a very small profit. Owing to the excellent material used in this wagon it is valued for its superior strength, great endurance, light build and light draft, all of which make it one of the most satisfactory wagons that can be bought.

Poindexter will leave for the scene of the disturbance Friday with a small hand Howitzer and it may be expected that there will be two skins for sale next week when he returns.

He is confident of striking a petroleum flow at a five or six hundred foot level. Since work on his well was discontinued last spring petroleum indications have been found in several other places where wells have been sunk in the vicinity.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by D. P. Adamson.
