Many thousands of dollars worth of goods, including Dry Goods, Groceries, Wagons, Buggies and Hacks are included in the sale. Crook county experienced its first stroke of winter during the past week. The rains which fell in the valley regions struck the mountain sides in the form of snow. **Wool Futures Go Higher.**

The startling news was given out Sunday night in wool circles that Frank Johnson, the Boston wool buyer, had purchased from Miles Lee and signed the contract in writing, the latter's wool clip for 1906, from the backs of 10,000 sheep at 22 cents a pound paying \$2500 cash to bind the option. So far as wool men know this is the earliest and highest priced option ever taken on a future wool stock in this county. What it means is difficult to figure out. Wool has been considered high at 16 to 19 cents and growers have been making fortunes during the last two years. There are those who believe that there is a great shortage coming in foreign wool, and that the American product will be at a tremendous premium. Mr. Johnson himself offers no information other than signing the contract as above and paying his cash on the faith of the increase in the market in 1906.—Baker City Democrat.

**Cattlemen Hold Annual Meeting.**

Members of the Crook County Cattlemen's association met at the court house last Saturday afternoon to hold the annual meeting of that organization. Different phases of the range question were brought up and discussed and many letters, from various stock associations dealing with proposed new laws and state organizations, were read and commented upon. A. S. Ireland, the local forest supervisor, attended the meeting and made clear some points relative to grazing stock in the forest reserves. At the conclusion of the afternoon's business the following officers were elected for the ensuing year: George Millican, president; E. T. Slayton, vice president; C. C. Dunham, secretary; A. L. Wigle, treasurer. The executive committee is composed of the above named officers and James Montgomery and George W. Noble.

**Well Known Firm Changes Hands.**

The former comes here from Lytle, Wash., where he has been successfully engaged in business, and his entrance into commercial circles in this city means another prosperous and progressive firm.

**A Jaucious Inquiry.**

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed.
