A shocking double tragedy occurred at Marshfield, in Coos county, on October 18, when Mrs. Rachel S. Stoops, a sister of Perry T. Monroe of lower Trout Creek, was shot and killed by J. A. Armitage, although a man with a large family, was infatuated with the woman and persecuted her with his unwelcome attentions. The family had moved three different times in order to escape him, but he repeatedly followed them. Armitage was undoubtedly unbalanced in his mind, being insanely jealous, and had made several threats upon the woman's life, the last one ending fatally. Mr. Stoops was away from home at the time, and only a young daughter witnessed the tragedy. After Mrs. Stoops had shot Armitage in the head, he still advanced and shot her, killing her almost instantly. He then went to his own house and ended his life with a rifle ball.—Antelope Herald.

Three fine qualities of native building stone are in evidence in the new buildings which have been erected, or are now being constructed, in the city. The red rock in the Prineville Hotel, the gray in the First National bank building and the white rock being used by J. B. Shipp in the construction of his new planning mill are all products of quarries within a stone's throw of this city.
