Now comes the startling news that a fifty million dollar corporation will absorb all the large independent electric companies from California to Canada and get control of all possible power generating points on every available river in the district, thus forming a monopoly on Pacific coast electricity. Well, we'll have our own electric light plant left anyway and maybe a few candles.

Crook county in general was well advertised in an article written by C. C. Hutchinson, land agent of the D. L. & P. Co., which appeared in the issue of the Portland Board of Trade Journal received last week. While the article had to deal for the most part with the irrigation projects in the county, there was an abundance of other information which cannot fail to be of much interest, and advantageous to those contemplating a future residence in this section of the state.

No Poison in Chamberlain's Cough Remedy.

From Napier New Zealand, Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had, and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by D. P. Adamson.
