Although numerous reports have been in circulation concerning the letting of mail contracts for routes out of Prineville, they seem to be without foundation as the reports that appear to be the most authentic are to the effect that none of the several routes have yet been awarded or had not been up to January 27. Telegraphic advice was received in Prineville by interested parties direct from the department on that date stating that none of the routes had yet been awarded. Yesterday was the last day for withholding the awards and they must of necessity be made public at once.
