THURSDAY, FEBRUARY 22, 1906

With all the assistance given her by the newspapers, Mrs. Nicholas Longworth, nee Roosevelt, probably realizes by this time that she is married. Muchly.

The registration in the Kutchner precinct up to the present time has been about 66 2/3 per cent Republican pure. This is somewhat contrary to the prevailing opinion that the settlement in Kutchner is made up of a Missourian population.

Senator Fulton's ability has been generally recognized by his constituents throughout the state, but it is evident from the luscious bouquets which are being handed to him in the east that even a statesman has to go away from home to be thoroughly appreciated. The Indianapolis Morning Star passes up to him this fragrant bunch:

"Senator Fulton of Oregon seems to have acquitted himself well in the first noteworthy appearance on the floor of the Senate in debate with men like Spooner, Foraker and Bailey. It is three years now since Mr. Fulton was elected, and he has done his work unostentatiously and well, impressing his ability upon all who have seen him, and yet avoiding the haste with which new senators are tempted to precipitate themselves into discussions. He is a man of fine talents and very great industry. His habit of mastering the details of his subject and thinking it through was revealed in his prompt and cogent answers to the questions which were shot at him by the best lawyers in the Senate."

New Irrigation Project at Sisters.

Private interests in the neighborhood of Sisters, the home of a number of irrigation projects, have set on foot another reclamation scheme, a stock company having been formed in Prineville the last of the week.

It is the intention of the organizers, who own a large acreage in the Sisters neighborhood, to appropriate water from Three and Snow creeks and also to tap the lake from which these streams derive their source. Filings were made on 2000 inches of water last Saturday at the conclusion of the meeting held at the court house when the new company was organized. There are other lakes in the vicinity of the head waters of the two streams which will also be tapped if the supply of water falls short. The diverted streams will be conducted through flumes and canals to the ranch lands of the stock holders where it will be used during the summer months for irrigation purposes.

The organizers of the new company and those who own land which will be watered by the company are: Caleb Bennett, John H. Edwards, J. E. Edwards, Chas. A. Hamilton and Hugh Edwards.

NEWS FROM REDMOND

Arthur W. Clothier will be here within the next ten days.

F. C. Rowell has given a year's lease on his hotel, butcher shop and barn to J. H. Edwards of Powell Buttes.

The Jones restaurant, bakery and confectionery shop will be opened in a few days, good luck to Jones. Does he pay the freight?

Richard Garmon has set up his tonorial chair in one of the office rooms of the Hotel Redmond and "U R Next" is the order of things.

Wanted at Redmond immediately: A laundry. Plenty of work to keep it going and plenty of money to keep the work going and plenty of help to keep the money going.

While jumping over rows of potatoes the other day on C. R. McLellan's place Charles French severely sprained his ankle and is now confined to his bed.

A gathering of jolly young folks was had on the 15th at the residence of Mrs. Carl Ebert. Music, dancing and games were enjoyed until the wee small hours of the morning when supper was served in a great hanging basket.

Mrs. F. C. Rowlee is planning for an extended trip through Southern California with her son Carlton who has not been very well lately. Carlton agrees with his folks that a trip would do him good and tries very hard to say Goo Goo when asked about it.

Theo Becker has painfully dislocated his thumb of his right hand and carries it in a sling; the help at the Hotel can now run things to suit themselves as Ted is unable to write out their time for any neglect of duty. To use his own words "Ted is up a stump."

Lou A. Reed and party have gone up to the Central Oregon to work on some leaks that have opened up in the bottom of the canal. These leaks have greatly retarded the work on the canal but it is generally expected that when Lou et al finish there no more trouble will be experienced in this line. C. R. McLellan is looking after the maintenance on the Pilot Butte canal.

In one of the late issues of the Bend Bulletin it was stated that L. H. McCann had just hatched ten little chicks which were the first around this part of the country. This is an error. If people would read the news in a newspaper they would see what's what. In the issue of this paper of three weeks ago it stated that Mrs. J. F. Circle had a brood of twelve chickens hatched with mother doing well. The chickens are now large enough to be killed for fryers.

The first meeting of the school board was held last week. Business of importance was transacted. It was unanimously decided that the first necessary step was to procure a larger school house. With this end in view it was talked very strongly of bonding the district. A meeting of the people will be called in the near future when the pros and cons will be discussed. This is something that we must all awaken to and when this meeting is called let each and every member and resident of this district, both men and women, make it a point to be there and take an active and audible part in this meeting. Rather let us go with two meals a day than suffer our children to grow up without an education. It is very apparent to us nowadays that a young man or young woman without an education is like a fifth wheel on a wagon. Remember when this meeting is called do not let it be said of you that you were not present.

Paulina News Notes.

Miss Anna Quinn is here and will attend the spring term of school which began Monday.

Mrs. M. E. Delore of Suplee was visiting friends and relatives here the last of this week.

Paulina country is enjoying the finest weather known here for several years. The stockmen report very little feeding this winter.

San Parish, Adolph Bolzate and Elmer Angell of Lew attended the masquerade ball here last Wednesday.

Mr. and Mrs. Rannels, Mrs. Anderson and Mr. and Mrs. Rutherford from Post attended the masquerade ball, Mr. and Mrs. Rannels staying over to visit relatives a few days.

The masquerade given by the Paulina Hall association last Wednesday night was the most successful ever held here. There were 36 maskers representing a variety of characters and the costumes were unusually pretty and attractive.

Madras Company Buys \$3200 Animal.

Eight stockmen and ranch owners in Culver and Madras districts have recently organized the Madras Percheron Horse Company and have purchased from the Hartman Stock Farm of Columbus, Ohio, a \$3200 Percheron stallion. The costly animal arrived at Madras about the first of the month, where the company has established its headquarters. The officers of the company are: E. M. Mortimore, president; C. A. Whitsett, secretary; A. S. Phillips, treasurer. The board of directors consists of L. V. Limbaugh, J. D. Starns, W. S. Williams, T. A. Taylor and Lee Peck.

Notice of Mass Meeting.

A mass meeting in the interest of law and order will be held in the Methodist church next Sunday evening at 7:30. Every man and woman interested in the enforcement of laws for a cleaner town is urged to be present. The prevalence of drunkenness in our streets, the wide open gambling, the sale of liquor to minors and to females, the violation of the Sunday closing laws—surely these things ought to arouse us to a sense of our duty. Lend your presence and influence in protest against existing conditions.

Handle Blooded Stock.

G. Springer is in the city from Culver on business connected with the Haystack Livestock Breeders Association, an organization which was formed by some of the local stock raisers in the Culver and Haystack districts last fall for the purpose of facilitating breeding improved stock. The association was formed last September since which time a \$3200 Belgium stallion has been purchased and delivered at Culver where the headquarters of the company are located. Other blooded stock will be purchased from time to time, the company intending to branch into all lines of livestock.

The officers of the association are: G. Springer, president; J. T. Robinson, secretary; T. J. Leach, treasurer. Members of the board of directors are: J. H. Windom, W. E. Helfrich, G. H. Osborn, J. L. Windom and S. S. Brown.

Startling But True.

People the world over were horrified on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have wardied it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. Witcox, Logan, New York. Sold by D. P. Adamson.
