THURSDAY, APRIL 26, 1906

The disaster which befell the state of California is without a parallel in the history of this country. Earthquake shocks shook the large stone buildings to their foundations, toppling them over in ruins, destroying the water system, resultant fire breaking out and completely destroying the city of San Francisco. Other cities of the state also suffered severely, but not so much.

Many lost their all, but undaunted by this the business men of the city are now devising plans for rebuilding, ample capital has been assured and plans made to make the future San Francisco the world's most beautiful city.

While the site of the city stands it will be rebuilt, and will become a greater city than ever. It will, however, be a tremendous work and will take a long time.

Murdock McDonald will without doubt carry off the gold medal for the greatest per cent of increase of lambs. He has a bunch of ewes that brought three lambs each, making three hundred per cent increase. He authorized the editor to put up a hundred dollars if any one wanted to bet that the statement is not true. The lambs came in the day on the range and were all living and well and were put in the lamb band in the evening.—Arlington Record.

At the coming June election the question will be before us as to whether the women of our state shall have the God given right of a voice in the making of the laws which govern them and saying equally with you how their money shall be expended and how their property shall be protected.

Yes, how shall it be? Are we to say to our wives, and daughters, and mothers that they are unfit, or incapable to intelligently exercise the right to vote, the right for which more blood has been spent upon the field of battle for any other.

Are we to say to them that they are not the equal of the foreigner who comes to our land ignorant of our laws and our institutions? He is invited to come and assist us in the election of our officers and the framing of our laws while the intelligent American woman is told that she is not qualified to have a voice in the affairs of State. Such a condition should cause the manhood of the nation to blush for shame.—Chronicle, Laidlaw, Ore.

SPRING STYLES

Now Ready for Your Inspection

We invite the interest and inspection of all who are interested in the new styles for the Spring and Summer wear

WE SELL AND GUARANTEE
"SINCERITY CLOTHES"

Because
—They are sincerely tailored
—They are made of honest materials
—In a big, sanitary, modern factory, by skilled, well-paid workmen
—They are correct and stylish
—They wear and hold their shape 'til threadbare
—They are not "DOCTORED" into shape by Hot Flat-Iron "dope"

And Because
A very large percentage of all clothing is doctored up by the Hot Flat-Iron to cover defects in tailoring. Such treatment does cover, but doesn't remove; for the first damp day on which these "doctored" garments are worn brings out these faults and causes them to lose shape and character.

Partial faults that may occur in the making of SINCERITY CLOTHES are permanently removed by Hand Needlework ONLY.
You can buy "Sincerity Clothes" with the assurance that you are getting Style—Perfect Fit—and that they will WEAR, and retain their shape, until worn threadbare—because they are tailored sincerely.
