A crew of vaqueros are to begin riding on Bear Creek next Tuesday, to round up a band of range horses belonging to Mrs. Stephenson and son. The round-up is for the purpose of selecting 50 head of horses sold to a Los Angeles dairyman at \$35 per head. The horses are to be head milk cans after they (the vaqueros) are broke. They must weigh from 950 to 1100 lbs., judged by guess, as it is estimated it would take 1000 head of broke horses to put this bunch of untamed thoroughbreds on the scales. Hon. Michael Mulvihill has had four fresh saddle horses shod and has been chosen boss of the round-up. There will be something doing on Bear Creek Tuesday.—Fossil Journal.

When the pioneer mothers of Oregon toiled across the plains beside their weary and heart-sick husbands, beset with perils, threatened with death from murderous savages, menaced by starvation in a barren land, and surrounded by all the privations of a wild frontier, did they think the coming generation would be ungrateful and selfish enough to deny them the fullest political prerogative in the State they helped to found? Really, isn't the delay in granting Oregon women the ballot a mean and miserly regard to their joint conquest of the wilderness with their husbands?

To think that the thug, the thief, the charlatan, the trickster, the reprobate and the immoral scoundrel may vote in Oregon, but that the pure-minded, noble mothers and wives are denied this privilege, is enough to awaken the thinking citizen to the injustice of the situation. What will the answer of Oregon be?—East Oregonian, 1th

Tenets of Social-Democracy.

I.

We the Socialist party, in convention assembled, make our appeal to the American people as the defender and preserver of the idea of liberty and self-government, in which the nation was born, as the only political movement standing for the program and principles by which the liberty of the individual may become a fact; as the only political organization that is democratic, and that has for its purpose the democratization of the society.

To this idea of liberty the Republican and Democratic parties are alike false. They alike struggle for power to maintain and profit by an industrial system which can be preserved only by the complete overthrow of such liberties as we already have, and by the still further enslavement and degradation of labor.

Our American institutions came into the world in the name of freedom. They have been seized upon by the capitalist class as the means of rooting out the idea of freedom from among the people. Our state and national legislatures have become the mere agents of great propertied interests. These interests control the appointments and decisions of the judges and our courts. They have come into what is practically a private ownership of all the functions and forces of government. They are using these to betray and conquer foreign and weaker people, in order to establish new markets for the surplus goods which the people make, but are too poor to buy. They are gradually so invading and restricting the right of suffrage as to take away the right of the worker to a vote or voice in public affairs. By enacting new and misinterpreting old laws, they are preparing to attack the liberty of the individual even to speak or think for himself or for the common good.

By controlling all the sources of social revenue, the possessing class is to silence what might be the voice of protest against the passing of liberty and the coming of tyranny. It completely controls the university, and the public school, the pulpit, and the press, the arts and literatures. By making these economically dependent upon itself, it has brought all the forms of public teaching into service submission to its own interests.

Our political institutions are also being used as the destroyers of that individual property upon which all liberty and opportunity depend. The promise of economic independence to each man was one of the faiths in which our institutions were founded. But under the guise of defending private property capitalism is using our political institutions to make it possible for the vast majority of human beings to ever become possessors of private property in the means of life.

Capitalism is the enemy and destroyer of essential private property. Its development is through the legalized confiscation of all that the labor of the working class

produces above its subsistence wage. The private ownership of the means of employment grounds society in an economic slavery which renders intellectual and political and political tyranny inevitable.

Social-Democracy comes to so organize industry and society that every individual shall be secure in that private property in the means of life upon which his liberty of being, thought and action depend. It comes to rescue the people from the vast increasing and successful assault of capitalist upon the liberty of the individual.

II.

As an American Social-Democratic party, we pledge our fidelity to the principles of the International Social-Democracy as embodied in the united thought and action of the Social-Democrats of all nations. In the industrial development already accomplished, the interests of the world workers are separated by no national boundaries. The condition of the most exploited and oppressed workers, in the most remote places of the earth, inevitably tends to drag down all the workers of the world to the same level. The tendency of the competitive wage system is to make labor's lowest condition the measure or rule of its universal condition. Industry and finance are no longer national but international, both in organization and results. The chief significance of national boundaries and of the so-called patriotism which the ruling class of each nation is seeking to revive, is the power which these give to capitalists to keep the workers of the world from uniting, and to throw them against each other in the struggle of contending capitalists for the control of the unexploited markets of the world, or the remaining sources of profit.

The Social-Democratic movement therefore is a world movement. It knows of no conflicts of interest between the workers of one nation and the workers of another. It stands for the freedom of the workers of all nations; and, in so standing, it makes for the full freedom of all humanity.

III.

The Social-Democratic movement owes its birth and growth to that economic development of world-process which is rapidly separating a working or producing class from a possessing or capitalist class. The class that produces nothing possesses labor's fruits, and the opportunities and enjoyment these fruits afford, while the class that does the world's real work has increasing economic uncertainty, and physical and intellectual misery, as its portion. The fact that these two classes have not yet become fully conscious of their distinction from each other, the fact that the lines of division and interest may not yet be clearly drawn, does not change the fact of the class conflict.

SPRING STYLES

Now Ready for Your Inspection

We invite the interest and inspection of all who are interested in the new styles for the Spring and Summer wear

WE SELL AND GUARANTEE "SINCERITY CLOTHES"

Because

—They are sincerely tailored
—They are made of honest materials
—In a big, sanitary, modern factory; by skilled, well-paid workmen
—They are correct and stylish
—They fit perfectly
—They wear and hold their shape 'til threadbare
—They are not "DOCTORED" into shape by Hot Flat-Iron "dope"

And Because

A very large percentage of all clothing is doctored up by the Hot Flat-Iron to cover defects in tailoring. Such treatment does cover, but doesn't remove; for the first damp day on which these "doctored" garments are worn brings out these faults and causes them to lose shape and character.

Partial faults that may occur in the making of SINCERITY CLOTHES are permanently removed by Hand Needlework ONLY.

You can buy "Sincerity Clothes" with the assurance that you are getting Style—Perfect Fit—and that they will WEAR, and retain their shape, until worn threadbare—because they are tailored sincerely.
