The lack of the ballot surely robs a woman of no rights of life, liberty or property. The reason why woman's suffrage is not favored by the mass of women or the mass of men is because it is a barren ideal. It rights no wrongs, it corrects no disability. Women today have withdrawn the ballot, all the civil and social rights exercised by men. As a natural right, suffrage belongs to neither man nor woman, for the ballot is only the child of an artificial social order to be granted or withheld as a matter of social and political expediency. The mere wish of a few women to vote is of no more consequence to the state than the mere wish of a few women to enlist in the regular army. That Moll Pitcher served her wounded husband's gun at Monmouth is not an argument for the expediency of enlisting women as artillerymen.—Miss. R. W. Winu, President.
