Fine Livery Rigs For Rent

Prineville Machine Shop

E. G. HODSON, Proprietor

I am prepared to do all kinds of Machine work (except casting) such as boring Engine cylinders, dressing valves and valve seats, fitting shafting for any kind of machine, also plow and edge tool grinding, saw gumming and filing.

Having installed new and up-to-date machinery for the above work, I can, in most cases, save you money over sending to Portland for repairs, say nothing about time saved which is certainly quite an item. At any rate give me a trial and then you will be in a position to judge for yourself. A supply of material kept on hand at all times.

What Alkali Is.

The term alkali as used throughout the west designates any soluble matter in a soil by water says the Denver Field and farm. The term does not mean that the salts are alkaline or basic in a chemical sense, for a greater part of these salts are neutral and in some cases even acid salts have received this name. Two kinds of alkali are commonly recognized—white and black. The white alkali is composed of one or more of the following salts, named in the order of their importance: Sodium chloride, sodium sulphate, magnesium sulphate, calcium chloride, magnesium chloride with, in some districts, borates and nitrates.

The essential constituent of black alkali is sodium carbonate, although this salt is never pure but is mixed with sodium bicarbonate and the salts which form the white alkali. These salts are formed through the weathering of the rocks and in districts of light rainfall the amount of seepage through the soil is insufficient to wash them away. There is therefore an accumulation in most arid soils—the amount, other things being equal, varying inversely as to the rainfall of the district. In some places the alkali is the accumulated salt from the evaporation of inland lakes. All river water contains soluble matter and when this water enters an inclosed basin where the waters evaporate an accumulation of salts is the result.

The mud, silts, and sand left by this lake all contain soluble matter and upon applying water by irrigation to such soils the alkali, which may not be apparent on the surface of the soils, is brought up by the water, as it rises through capillary attraction. These inclosed basins sometimes represent the most difficult conditions with which the farmer has to deal, for the salt begins to accumulate in the lowest part of the basin extending to the sides as the amount of salt brought in increases. The great expense or impossibility of draining such basins is the great barrier in the way of reclamation. The great Salt Lake of Utah is the remnant of a great lake and its waters today represent the mother liquor from the concentration of the great quantities of water. In past geological ages arms of the ocean were sometimes cut off from the main ocean and the waters concentrated by evaporation until part or all of the burden of soluble matter was deposited. Beds formed in this way today, when elevated above the level of the sea and exposed to erosion, give rise to quantities of alkali.

They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by D. P. Adamson & Co.

Library Apportionment.

The following is the County Library Apportionment and directors should make selections as soon as practicable. Selections must be made and sent below before August 10 or the Commission will make selections:

1—\$25.00	20—\$1.20	42—\$1.90

For further information inquire of L. V. BAILEY, Paulina, Oregon. 7-12-06

"Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by D. P. Adamson & Co.

\$5 Per Head Reward

I will pay \$5 per head for horses with the following brand (a wrench) on right or left still, prongs pointing towards head. Horses are known as the Johnny Deas horses and range from the John Day to Trout creek. Horses were raised on Trout creek. Any one taking up these horses, holding them and sending me information so that I can come and get same will receive the above reward per head. A. J. WASHBURN, 8-28-06 Suphe, Or.

In Self Defense

Major Hamo, editor and manager of the Constitutionalist, Eminence, Ky., when he was severely attacked, four years ago, by Piles, bought a box of Bucklen's Anal Ointment, of which he writes: "It cured me in ten days and no trouble since." Quickest healer of Burns, Sores, Cuts and wounds 25c at D. P. Adamson & Co., and Templeton & Son's drug store.

IT DRAWS HARD

On a woman's vitality to do work for which she is untrained, and we wonder how some of our ladies live through a single season of pleasure or dissipation. They are "almost dragged out." Many, in this condition, resort to alcoholic stimulants which are very injurious. Dr. L. V. Pierce, forty years ago found that women were being weakened through ignorance or carelessness and determined to devote his life and energies to their relief.

Having found the cause of their suffering, he next sought for the means of relief, and found in Nature's laboratory—the earth, certain roots which had remarkable and valuable medicinal virtues for the cure of these ailments.

Using chemically pure glycerine, of proper strength instead of alcohol, he prepared extracts of these, and the result was so satisfactory that the combination became his "Favorite Prescription." The roots used are: Lady's Slipper root, Black Cohosh root, Unicorn root, Blue Cohosh root and Golden Seal root. The world knows it as DR. PIERCE'S FAVORITE PRESCRIPTION, which has the wonderful and unparalleled record of a half-million of cures in the last forty years.

Write to Dr. Pierce, Buffalo, N. Y., for advice, given without charge.

"I am glad to be able to testify as to the merits of Dr. Pierce's Favorite Prescription for the many ills that women suffer with," writes Miss Gertrude Milled, President Young Ladies' Christian Endeavor Society, 25 Columbia St., Detroit, Mich. "After many years of suffering and pain, I took your medicine, and in a short time began to strengthen, became more regular, and did not have the bearing-down pains which had been my lot for so long. Small necks are very common, and I have felt much stronger generally. My husband and I feel much better." Dr. Pierce's Pellets cleanse the clogged system from accumulated impurities.

Road Bids Wanted.

The county court of Crook county, Or., will receive bids up to 10 o'clock a. m. July 6, 1906, for the construction of a wagon road in Hay Creek Canyon, leading from in front of C. McPherson's house to the Dan Pierce old place, so as to avoid Gates and Crisp hills. Contractor will specify and set pegs along route where he proposes to build road, and specify width and maximum grade, and all other conditions of the road he will propose to build. The contractor to furnish his own specifications of such road with bid.

The court reserves the right to reject any and all bids. The successful bidder will be required to enter into a contract and furnish a bond within 30 days after being awarded the contract. By order of the court. J. J. SMITH, County Clerk.

Notice for Publication.

Department of the Interior, Land Office at The Dalles, Oregon, July 19, 1906. Notice is hereby given that James C. Houston of Crook Co., Or., has filed notice of his intention to make final five-year proof in support of his claim, viz: Homestead Entry No. 6980 made June 21, 1898, for the lot 4, Section 19, T. 19 S. and 2, Section 10, T. 18 S., R. 19 E., W. M., and NE 1/4 NE 1/4 Section 25, T. 18 S., R. 18 E., W. M., and that said proof will be made
