A meeting of the business men of Prineville was called Monday evening to meet Mr. Rogers of Seattle, the gentleman who has been instrumental in bringing about the consolidation of the Mayflower mining properties at Howard with the Washington Meteor Mining Company. There was a good attendance present when Judge Brink called the meeting to order and introduced the speaker of the evening, Mr. Rogers. This gentleman spoke for about an hour on the subject of mining.

"There is more new wealth created every year from mining than from all other sources of wealth put together," said the speaker. "You may not believe it, but it is nevertheless a fact which you can verify for yourself. The cause of so many failures in mining is the lack of training of the men in authority. A man might be a good merchant or professional man and yet be a complete failure when it came to managing a mine." Mr. Rogers expressed himself as highly pleased with the Howard properties. Values have been underestimated rather than overestimated by the former owners. The question of building a wagon road for the transportation of concentrates to Shaniko was discussed and referred to the Prineville Business Men's League for further action. It was the sentiment of those present that anything that would benefit the town would receive their support.

Miss Jackie Rock, the composer in the Sentinel office, made a flying trip to Fossil and Condon Saturday returning by the Fossil stage Monday. It was Miss Rock's first visit to those two lively towns and she reports being well pleased with the country she passed over and the towns she visited but is inclined to think that winter comes on rather early over there. As she had no knowledge of the high country she was going into she says she did not suffer for want of ice.—Mitchell Sentinel.
