VOL. XI

PRINEVILLE, CROOK COUNTY, OREGON, JANUARY 3, 1907

NO. 3

## CLOSED

Saturday, January 5, Monday, January 7, and Tuesday, January 8,  
UNTIL WEDNESDAY, JANUARY 9, AT 9 A. M.

Our building will be closed to arrange for the most Gigantic Sale, and mark down our \$70,000 stock, consisting of Dry Goods, Furnishings, Shoes, Hats and Ready-to-Wear Garments for Men, Women and Children; Groceries, Hardware and Implements. Every article to be marked in plain figures, and must be sold within Ten Days, commencing Wednesday, January 9, at 9 o'clock a. m. sharp. To fully realize and to properly appreciate the marvelous sacrifices that will be made you must need visit our store yourself, for were we to use the most emphatic language, we could not sufficiently impress upon you the importance of these bargains. Why, language is too faint to give you an idea of the extraordinary values to be found Wednesday, January 9. For prices and particulars see page 4.

Timber Land, Act of June 3, 1878.

Notice for Publication.

United States Land Office,  
The Dalles, Oregon, October 20, 1906.  
Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, the following-named persons have on September 15, 1906, filed in this office their sworn statements, to-wit:  
Owen C. Ogden, of Hoquiam, county Chehalis, state of Washington, sworn statement No. 3290, for the purchase of the SE $\frac{1}{4}$ , SW $\frac{1}{4}$ , NE $\frac{1}{4}$ , Lots 2 and 3 of Section 1, Tp. 13 S., R. 17 E., W. M.  
Herman Hubble, of Hoquiam, county Chehalis, state of Washington, sworn statement No. 3291, for the purchase of the SE $\frac{1}{4}$  of Section 33, Tp. 12 S., R. 17 E., W. M.  
Florence Hubble, of Hoquiam, county Chehalis, state of Washington, sworn statement No. 3291, for the purchase of Lot 4 of Section 3, Lots 1, 2 and 3 of Section 4, Tp. 13 S., R. 17 E., W. M.  
And will offer proofs to show that the lands sought are more valuable for the timber or stone thereon than for agricultural purposes, and to establish their claims to said lands before the Register and Receiver at The Dalles, Oregon, on January 15, 1907.

They name the following witnesses: Owen C. Ogden, Herman Hubble, Florence Hubble and J. E. McCaulie, Hoquiam, Washington; J. W. Ritter and R. E. Jones, of Prineville, Oregon.  
Any and all persons claiming adversely any of the above-described lands are requested to file their claims in this office on or before the said 15th day of January, 1907.  
MICHAEL T. NOLAN,  
Register.

Pastry of all kinds made to order.

PRINEVILLE, - OREGON

### Remove All Obstructions.

The following petition is being numerously signed in Prineville and vicinity. It reads:

Whereas, a filing for water power has been made by the U. S. Reclamation Service on the Deschutes River, and has caused the grant of the right-of-way in the canyon along that river, applied for by the Oregon Trunk Line Railroad Co., to be refused by the Department of the Interior, and whereas, such action on the part of the Reclamation Service and the Department of the Interior is directly against the interests of the general public and will stop the development already begun in Crook county in particular and Central Oregon in general, and seriously injure the lumber interests and irrigation projects now under way and largely completed, and will prevent further investment of outside capital and further settlement of the county and perpetuate the present hardships of the inhabitants;

Now Therefore, your petitioners, residents of Oregon and Crook county, the undersigned, respectfully petition the Department of the Interior that the right-of-way applied for by the Oregon Trunk Line Railroad Co. be granted, and permit a railroad to be built along the Deschutes River as projected by said company, and the filing heretofore made by the U. S. Reclamation Service be withdrawn to the end that transportation facilities be afforded to the people and traffic of a territory larger than the State of Massachusetts, and with boundless possibilities in agriculture, manufactures and commerce.

Your petitioners further represent that the route of the Oregon Trunk Line is the most feasible and logical for serving this section, by reason of location, grade and accessibility to transcontinental lines and is the only line upon which actual construction work has been begun.

Wherefore they pray that such right-of-way be granted and that all interference therewith cease.

Portland Boy Inventor.

Victor J. O'Connor, a Portland boy, who has been located at Redmond, Crook County Or., during the past three years, has perfected an invention for centering headings on statements written on the typewriter. The new instrument is designed to save the stenographer much time and annoyance in arranging the spaces on the machine in order to place the heading in the exact center of the paper. The invention of Mr. O'Connor is similar to a drawing compass and has attachments which render the spacing easy of arrangement. Since securing his patent on the

device, the inventor has received numerous offers for it. He is now planning to have the invention manufactured in Portland. Mr. O'Connor is connected with a large land promoting company in Crook county, which is engaged in extensive irrigation projects. He is in Portland spending the holidays with his relatives.—Oregonian.

### Maury Mountain Observatory.

Lumber is still being hauled from the Birdsong & Ammond sawmill. Lumber is in great demand this season.

If we judge from the frequent trips made to Prineville of late by the Maury Mountain forest ranger there will be a lady ranger on that mountain ere long. There is need of another ranger near the head of Maury creek.

Bye Bennett has purchased one hundred head of two-year-old steers from L. V. Bailey. He paid \$24.50 a head. Cattle are advancing in price right along.

Jack Summers has promised to have this part of the country connected with the outside world before very long. He needs about 1000 poles to complete the line under construction along the Crooked river wagon road between Prineville and Buck creek. The settlers hail the coming of the 'phone with joy for it has long been needed.

Stockmen are getting their herds near to the feed yards. Old-timers are looking for one of the so-called "equalizers" that used to visit these parts occasionally. The "Observatory" has failed to notice any symptoms of such a winter. There are a few things, however, it has noticed, and one of them is that at the commencement of each winter the inhabitants hereabout look for and expect a very severe winter, for, as they say, we haven't had one for some time. It is our belief that if the people here would at the beginning of the year 1907 anticipate a severe winter in 1908 and prepare for it there would be a whole lot of anxiety spared them.

Very respectfully,  
ONE AT THE GLASS.

### The National.

The National for January is a "snappy" number. "Affairs at Washington," by its editor, Joe Mitchell Chapple, is exceptionally strong in character; and several additional pages are added to this department, giving to the reader an insight into the affairs at the National Capital such as can be obtained from no other publication. "Cuba's Malada" is the title of one of the most timely articles of the month, and is written by John Vavasour Noel, who has been in Cuba for some time, and has made a study of the conditions

that led up to the intervention by the United States. Kate Restieux contributes an interesting article upon John Greenleaf Whittier, the great American poet. Charles Warren Stoddard furnishes one of the best stories he has written for many months, under the title of "Caprice." "The Bright Side of Paekingtow," by Mary Humphrey, gives the reader an intelligible idea of conditions, and is so widely different from the sensational material, that all good people, except those who are looking for "yellow literature," will appreciate the article. The "Home Department" is, as usual, full of those helpful hints that we all want to know. The editor adds to the "Happy Habit" articles a set of "Resolutions," which are good for all living beings. The number is filled with the very best of fiction, among which might be especially noted, the story "Reversing an Engineer," by C. C. Johnson; "The Poor Man's Cow," by Miriam Sheffy; "A Comedy in the Air," by Charles Melville; "His Client," by F. Binney de Forest; as well as other fascinating fiction. The National's recent cover designs are excellent this month by one of Manning's Typical American Girls, which is the best thing he has yet done.

### Strayed.

There strayed to my ranch, the old J. O. Powell place, on McKay creek, one black horse, weight about 1050 pounds, saddle marks, branded half circle on right jaw, 1 J on left shoulder two half circles on the left atifle. Owner can have same by calling at the above place and paying the expenses on said horse. 12-13-imp A. J. DECKER.

Poster & Horgan have received a shipment of 300 boxes of first class apples from Seattle which they are offering for sale at \$2 and \$2.25 per box. Also a few boxes of choice apples for immediate use at \$1.50 per box. 12-13-11

Mrs. W. H. Staats of Bend, was visiting in town this week.

Mrs. L. L. Welch of Redmond, was visiting in town last week.

C. W. Elkins returned Wednesday from a business trip to Portland.

E. C. Park of Redmond, was in town Wednesday. He reports the city of Redmond to be thriving.

Wm. Wigle will give one of his enjoyable dances on the evening of January 25. The dance will last all night.

Mrs. Hugh Lister of this city, met with a peculiar accident. Some six weeks ago while stamping her feet to kick off some snow she stepped on a broken lamp chimney. She felt a sharp pain in her foot at the time and upon investigation found that a piece of the glass had cut her foot. She paid no further attention to it at the time but for some reason the wound would not heal. Dr. Rosenberg examined the wound and removed a triangular piece of glass with a base half an inch long. The foot is now getting better.

## Gatewood Mining & Trading Company

OF HOWARD, CROOK COUNTY, OREGON

Capitalization 500,000 Shares.

Treasury Stock 100,000, Par Value Non Assessable.

Subscription Price \$1.00 per Share.

Paying from the grass roots down.

The property consists of 33 claims in the South-eastern part of Crook county, on the head waters of the Ochoco river. There is an abundance of water for power purposes and some of the best timber in the county is located on these claims. The economic conditions for mining could not be better.

The mines are now on a paying basis, but with additional machinery they can be made a big dividend payer as the output can be doubled with very little additional cost of labor. In order to install this machinery the management has decided to issue 10,000 shares of Treasury Stock. This stock will in all probabilities be the last offered for sale. It will be sold at \$1.00 per share. There is no deviating from this price. That the stock will increase in value is a

certainty. You can find no better place to invest your money. If you desire to get in on this you will have to do so at once, as this stock was put on the market in order to give the residents of the county a chance to realize something from an investment in one of their own properties.

This is not a speculation at all but a sound business investment based upon ascertained facts. The mine has been developed beyond the experimental stage. About the best recommendation we can give these mines is that the men employed by the company are investing their savings in the purchase of this stock. Also such men as Clark, Daly, Fair, Haggin, and a host of others have made their money from mines and the development of them.
