## No Closed Season for Trout.

There is no longer a closed season for trout fishing in the state of Oregon except in the Umpqua river and its tributaries, and anglers may fish for trout at any time of the year in any river or creek in the state except in the Umpqua river and its tributaries, says the Portland Journal.

This condition of affairs was brought about by the last legislature by an act which amended the old law. Its effect was not discovered until Robert Shaw, Judge Webster's private secretary, discovered the effect of the amendment while noting in the judge's code the changes in the laws made by the legislature.

The closed season for trout was formerly November, December, January, February and March, and was prescribed in section 2034 of the code. By an act of the last legislature this section was amended, so that now the only statute providing a closed season for trout reads as follows:

"It shall be unlawful for any person to take, catch, kill or have in his possession any trout, except salmon trout, during the months of December, January and February of any year taken from the waters of the Umpqua river or its tributaries, or at any time to take, catch, kill, or have in his possession any trout, char or salmon less than five inches in length, or to take, catch, or kill the same by any means whatever except with hook and line, commonly called angling."

It is held that the closed season provision of this amendment of the old law applies only to the Umpqua river and its tributaries, leaving no law whatever providing a closed season for trout fishing in any other stream in the state. The bill was introduced by Representative Jackson of Roseburg, and was passed without change. The amendment is found on page 54 of the 1907 session laws.

Section 2034—It shall be unlawful for any person to take, catch, kill, or have in possession any trout, during the months of November, December, January, February and March of any year, and it shall be unlawful for any person to take, catch, kill, or have in possession at any time any trout, char or salmon less than five inches in length, and it shall be unlawful for any person to take, catch or kill at any time in the waters of this state any trout by any means whatever except with hook and line, and any person fishing with hook and line, who, upon lifting the same, shall find any trout, char or salmon, less than five inches in length caught or entangled thereon shall immediately, with care and the least possible injury to the fish, disentangle and let loose the same, and transmit the fish to the water without violence.

It is generally believed that it was the intention merely to shorten the closed season on the Umpqua from five months to three months, and leave all the other streams in the state with a five months closed season, but the effect was to give the Umpqua a three months closed season, and other streams no closed season at all.

The law can not be remedied until the next legislature convenes in 1909, and many believe that by the time an amendment could be made effective trout in Oregon streams would be nearly all fished out.

## Alfalfa Without Irrigation.

Alfalfa is now generally recognized as the most satisfactory hay and pasture plant that has been grown on dry land which has previously been in cultivation. On such land it does not reach its highest development until about the third year since it requires some time for the root system to develop sufficiently

to take up the required moisture for the plant. Therefore, little must be expected of it the first year.

When properly sown and cared for a fair crop of hay can be expected the second year. Since alfalfa does not give its largest returns for two or three years it should be sown with the expectation of allowing it to occupy the grounds for a number of years. The success of alfalfa depends largely upon the preparation of the soil, the method of seeding and the care of the stand. I have spent considerable time studying the methods of the farmers most successful in growing alfalfa without irrigation and have learned a few things that may be of value.

The ground selected for alfalfa should be as free as possible from weeds and in perfect tilth. In all localities where the rainfall is not sufficient to grow wheat without summer following every other year the land should be plowed deep in the fall, winter or early spring. It should be thoroughly cultivated during the spring and summer to kill the weeds, retain moisture and put the soil in good tilth. In such localities the subsoil of new land is comparatively dry when compared with that of the same kind of land which has been farmed for a number of years.

Alfalfa is a deep feeder and requires plenty of moisture for its best development. It is quite essential therefore, that land be selected that has produced a number of crops to be sure of plenty of moisture in the subsoil to carry the young plants through the first dry summer. Near the mountains where the rainfall is sufficient, the growing of a thoroughly cultivated crop of corn, potatoes or sugar beets will put the land in good condition for alfalfa. Land that has produced a crop of wheat, oats or barley may be plowed in the fall, cultivated thoroughly in the spring and the seed sown with the land in fairly good condition.

Alfalfa does not require much care the first season, more than to mow the weeds a few times during the summer to prevent them from seeding and to keep them from smothering the young alfalfa plants. It is well to mow the field two or three times during the season, but the growth of weeds and alfalfa should not be cut too close to the ground. It seems to be true that when alfalfa becomes well established, frequent close cutting seems to benefit the plants and cause them to grow more vigorously but this is not true of the young, tender ones. It is true of alfalfa as with any other young plant, that it must form a top growth before or at the same time that it is producing roots. The leaves are the stomach and lungs and before the roots can develop, the leaves must manufacture the products which are built into cells and tissue that constitute the root. If this top growth of leaves is kept cut off before sufficient root growth has been established to easily restore the top growth, the effect is to stop the growth of the plant.—Byron Hunter in Field and Farm.

## Will Soon Begin to Build.

Charles Graves, of Odell, says the Klamath Falls Daily Herald, is authority for the following statements, receiving his information direct from Engineer Journey, of the S. P. Co.'s engineering force:

Mr. Graves stated that work on the survey of the Oregon Eastern between the Klamath Falls-Natron line and the Oregon Short Line was practically completed, with the exception that the new survey had not been approved. The work now being done is on the third survey, the first two having proved unsatisfactory. The second survey shortened the distance some three miles over the first, while the third shows a gain of about 3000 feet over the second, and in these strenuous days of railroading

every inch counts. Between Odell and Natron the surveyors are finding an easy grade over the divide, although it is necessary to make some wide curves and maintain the grade required. The canyons and ridges make the engineering problem quite serious when it is necessary to build a road not only of an easy grade but also at the same time avoid all sharp curves. While Mr. Graves has no information concerning the time when actual construction work would be commenced, yet he believes that it will not be long before the crews are put to work.

## Items from Sisters.

July 1, 1907.

Mr. Withers and wife of Bend passed through town on their way to Eugene.

Mrs. Clara Dibble of Hood River is in town to meet her husband, who is a timber warden.

Johnny Gardner of Omaha, the railroad official, is in town on business. He was accompanied by J. N. Gurkin of Laidlaw.

Mrs. Huston, the owner of the Cottage Hotel, is very sick at her home.

George O'Neil is in town looking after the welfare of his stage line from Prineville to this place.

Mrs. George Stevens is visiting at this place.

Men are employed on the new race track to get it ready for the Fourth.

"Lige" Sparks is in town.

James Sears, who drives the stage from Cline Falls to Prineville drove to this place Sunday and James Scoggin, the Sisters driver, took the stage to Prineville.

## Never Stop Advertising.

We wonder if our home merchants ever stop to think why the big mail order houses are so successful. Their success lies in their continual advertising of their goods says the Hunkville (Mo.) Herald. They never stop advertising because of change of season or for any other reason. The county newspapers have been fighting these mail order houses hard for years for the benefit of the home merchant, and some of the merchants appreciate this and some of them do not. If the mail order houses would practice advertising by "spurts" in certain seasons of the year, like some country merchants, they would soon go out of business. While the local or home merchant keeps his business "under a bushel," so to speak, or out of their local paper on account of hot, dry or wet weather, or bad roads, they are giving the mail order houses the advantage of them before the people, for those houses never stop advertising for any kind of weather or for dull times.

## Good for Stomach Trouble and Constipation.

"Chamberlain's Stomach and Liver Tablets have done me a great deal of good," says C. Towns, of Hat Portage, Ontario, Canada. "Being a mild physic the after effects are not unpleasant, and I can recommend them to all who suffer from stomach disorder." For sale by D. P. Adamson.

## Don't Be a Knocker.

Hide your little hammer and speak well of others, no matter how small you may really know yourself to be. When a stranger drops in, jolly him. Tell him this is the greatest town on earth, and it is.

Don't discourage him by speaking ill of your neighbors. There is no end of fun minding your own business. It makes other people like you. Nobody gets stuck on a knocker.

## Jersey Cow and Calf Wanted.

Jersey Cow and Calf wanted at once. Must be a good milker. Address John Mattson, care of John Sundquist, Prineville, Or. 7-4 2tp

## Best Medicine in the World for Colic and Diarrhoea.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until the week when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man. For sale by D. P. Adamson.

When you want a pleasant laxative that is easy to take and certain to act, use Chamberlain's Stomach and Liver Tablets. For sale by D. P. Adamson.

## A Bargain in Land

Three Hundred and Twenty Acres adjoining Prineville city limits now on the Market.

What can be produced on the fertile lands of the Crooked River Valley need not be told in print. It has been demonstrated by the enterprising farmers of the valley to be as good alfalfa land as there is in the world. Money invested in such land cannot but bring good returns, far better than 10 per cent interest.

I am offering for sale the following described tract lying immediately north and west of Prineville on the easiest possible terms: N½ of N½, S½ of N½, and 1½ S½, Sec 46, T. 14 S. R. 15 E.

Examine the land, then write me for price and terms.

J. A. DOUGHTY,

Rooms 3 & 4 Odd Fellow Building,

The Dalles, Oregon. 7-4 2t

## Don't be a Fool and Try to Cut your own Stovewood.

If your wife won't do it buy from the

GRIZZLY LAKE LUMBER CO.

16in. Slabwood only 50c a tier at the mill. Good roads, down grade. Can draw all you can pile on.

Grizzly Lake Lumber Co. Lamonta, Oregon.

## The Crook County Real Estate Company

PRINEVILLE, OREGON

### SOME BARGAINS

(8) 310 acres, eight miles from Prineville; one-quarter mile to school; all under fence; good six-room house 25x30; good barn 44x80; wagon shed, granary and wood shed. Good orchard and small fruit; 200 acres in cultivation; 65 acres in alfalfa; soil black heavy loam all cultivated land under ditch; plenty of water; free water right; private ditch. This land has never failed to produce heavy crops of grain and alfalfa hay. It is situated near the pine timber; plenty of wood and outside range adjoining. This is an excellent farm; a rare bargain at \$9,500, with only \$5,000 cash, balance on terms to suit at 8 per cent.

(12) 1280 acres, 5 miles from Prineville; Crooked river runs through the place; 1000 acres can be irrigated by taking a short ditch out of Crooked river; plenty of water; 100 acres in cultivation; all under fence and cross fence. This land can be made worth \$100 an acre by putting water on it and setting to alfalfa. Here is your opportunity. \$25 an acre buys the farm.

(22) 640 acres, 3 miles from Prineville, 340 acres level bottom land on Crooked river, under irrigation ditch. Sub-irrigation also, water 6 to 8 feet from the surface. 300 acres good pasture land, 340 acres under 4-wire fence, 2 wells 10 feet deep; 3 springs warm water. Good house 28x30, 4 rooms; barn 64x42, 200 acres in cultivation; 20 acres in alfalfa; 200 acres can be seeded; 3 acres in wheat; 29 in rye, 15 in barley, 1 in new alfalfa, 1 mow and 1 rake included. This land will produce 1500 tons of alfalfa per year which at \$8 a ton is worth more than the price asked. Price \$11,000. Only \$5,500 cash, balance on terms to suit at 8 per cent. Alfalfa land well set is worth \$100 an acre. Here is an opportunity to make a fortune.

(36) 1358 acres, 200 acres can be farmed balance fine pasture land. Soil sandy loam 1000 acres under fence. 425 in cultivation. 40 acres in alfalfa, 15 acres meadow. Plenty of juniper for wood and posts, watered by six good springs. Good small orchard, and plenty of small fruit. Good house 28x36, 7 rooms. Good barn 40x50. Granary, sheds etc. ½ mile to school. 20 miles to Prineville. 20 hogs, 75 cattle, 5 horses, 2 mules, 2 wagons, 1 walking plow, 1 sulky plow, 1 gang plow, 1 harrow, 1 mower, 1 rake, 1 binder, 1 grain drill, 1 threshing machine and power, 1 blacksmith shop, 70 acres rye, 60 acres wheat, 25 acres oats, 25 acres barley 200 acres summer fallow, grain sown on summer fallow. One share in telephone line under construction. This farm always produces large crops. Price \$17,000, one-half cash balance terms to suit at 8 per cent.

(39) 306 acres, 320 acres level land. Balance good pasture land. Soil deep sandy loam. All under three wire fence. 320 acres under cultivation. One good well with 18 feet of water. One good 7-room house and one large cabin. Good barn 60x30. 1 granary, 1 hen-house, 1 cow barn, 1½ miles to school, 6 miles to Madras. This land is adapted to the production of all kinds of grain, fruit and vegetables. Price \$7955. Cash \$4000, balance in three years at 8 per cent.

Prineville, Oregon.

Timber Land, Act June 3, 1878—Notice for Publication.

United States Land Office, The Dalles, Oregon, May 29, 1907. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1894.

Martha Edith Curtis, of Portland, County of Multnomah, State of Oregon, has on October 25, 1906, filed in this office her sworn statement No. 2567, for the purchase of the lots 2, 4, and 6 and 82½, NW¼ of section No. 9, in township No. 14 S., range No. 18 E., W. M., and will offer said land for sale by public auction at Prineville, Oregon, on the 19th day of September, 1907.

She names as witnesses: R. E. Jones, Nellie C. Jones, John W. Ritter, Robert Demaris, all of Prineville, Oregon.

Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 19th day of September, 1907.

C. W. Moore, Register.

# Deering Machinery

A full line of extras for all Deering Machines sold in this territory always carried in stock.

We are prepared to furnish you with anything in the haying or harvesting line.

Get our Prices before Buying.

We are agents for the DEERING LINE, famous the world over as being the ideal harvesting machines

## Deering Binders, Mowers and Rakes

Have never failed to "make good," no matter how difficult the test. We would like to show you some of these machines. Call on us and we will tell you why the Deering line deserves your consideration. It is a question of profit for you as well as for ourselves.

# WURZWEILER & CO.

PRINEVILLE, OREGON

## Steam Fittings Just Received.

We have just received a line of Steam fittings such as the Celebrated Jenkins Bros. Globe and Check Valves, Detroit Lubricators, Best Scotch Gauge Glasses. We have also a line of packing on hand.

We have the agency for the best Gasoline Engine on the market. See one run at our shop. Don't forget that I carry Belting, Cap Screws, Shafting Boxes, Collars, and that I am prepared to make your planer bolts and any other kind of odd bolts and screws you may need. 2-1441 PRINEVILLE MACHINE SHOP.

## Notice to Debtors.

Notice is hereby given that all persons indebted to the estate of Leonard Dillon, deceased, must settle at once, otherwise they will have to pay costs. MRS. LENORA DILLON, 94rup Administratrix of said estate.
