Portland Correspondence

Portland, Oregon, Dec. 16, 1907. Ed. Journal: There is universal interest all over the state in the meeting of the Oregon Press Association on January 17th and 18th. Upon several different occasions there were between 600 and 700 people in attendance upon the Dairy Convention and exhibit at one time, and from the moment that President Judd called the meeting to order at 10 o'clock Thursday morning until it closed at 5 o'clock Friday afternoon, the interest never flagged. Hon. B. D. White, the dairy expert with the Department of Agriculture at Washington, D. C., who has participated in dairy conventions in all of the older states, said that he had never attended a better convention. The program was full of interest—it was a school of information and instruction, and facts were presented and views exchanged and actual results shown, which will be of tremendous value to all those engaged in the industry or contemplating a participation in it. The substantial character of the gathering was shown when the chair requested those actually milking cows commercially to stand—75 per cent of the audience rose, and when a vote was asked to show what proportion of these were testing milk with the idea of keeping their herds up to the highest standard, at least three-fourths of the milkers rose a second time, a striking evidence of modern dairy methods. The proceedings in full will be printed in book form just as soon as the stenographers, photographers and printers can get their material in shape. Prof. F. L. Kent of the Oregon Agricultural College at Corvallis was made President, and W. L. Crissey of the Portland Club Secretary. The campaign in behalf of the next convention will begin immediately for it is determined that that convention, like the one just held, will be the most important and beneficial gathering of any held during the year 1908. The exhibits were magnificent, equaling those at the international show. The whole state was represented. The convention was a tremendous success, and the men interested in dairying have determined that the products of this great industry will add at least \$20,000,000 to the wealth of Oregon in 1908. 204 people personally paid their dues while in attendance, the greatest previous record being 84, and before the next session of the Association is convened the rolls will contain to exceed 300 members.

How Diphtheria is Contracted

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. For sale by D. P. Adams.

For Sale

Grain, alfalfa and baled hay for sale. Will deliver by load or sell in stack. Inquire of Omar Claypool, at C. W. Elkins' store.
