

**ORCHARDISTS TO
SPRAY OR CUT**

"Spray 'em or cut 'em down," says Secretary Williamson, of the state board of horticulture, according to the Telegram, in discussing the care of fruit trees and vines. He is now engaged in sending out the formulas for spraying for San Jose scale, woolly aphis, codlin moth and other things that prey on the fruit crop of Oregon.

"Now is the time for winter spraying and it should be done right away," he said. "Where the trees are not worth spraying, they should be cut down and burned, so as not to remain breeding places for the various pests. Even rose bushes should be sprayed, in order that they may not harbor the San Jose scale."

His circular says, in regard to lime and sulphur spraying:

This is the spray to use in winter for killing San Jose scale, and all other insects which are on fruit trees in winter. For destroying San Jose scale on fruit and other trees and shrubbery, use at any time during the winter at full strength of the formula given below: For preventing apple three anthracnose, (dead spot or canker) spray with full strength of formula about the first of November. For preventing peach leaf curl apply just before buds open in spring.

Formula: 15 pounds of unslaked lime, 15 pounds of flowers of sulphur, 50 gallons of water.

Place part of the water in the vat or kettle, and start the fire, and when the water comes to a boil add the lime and sulphur. Boiling should be continuous for at least an hour and until the sulphur has been dissolved. The liquid will then be red. It must be stirred while the boiling is going on.

Commercial preparations of the lime sulphur spray are on the market in liquid form and are extensively used. Those which are properly made are efficient. Purchasers of the liquid forms of this spray should require a guaranty from the manufacturers that when such sprays are diluted according to manufacturer's directions they will contain at least 15 pounds of sulphur in solution in each 50 gallons of spray.

Neglected Colds Threaten Life

(From the Chicago Tribune.) "Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by D. P. Adamson, February 8, 1908.

"Spirit of the Golden West"

Portland, Oregon, February 14—Portland's great annual institution, the Rose Festival, which was inaugurated last June under such auspicious circumstances, will, this coming June, be consummated on a scale so broad and grand that it will have a general appeal to the whole state of Oregon and an individual appeal to every community in the commonwealth. The grand jubilee, which will be one round of pleasure for the whole week beginning Monday, June 1, and ending in a blaze of glory the following Saturday night, is not for Portland or Portland people alone.

One of its most spectacular and brilliant features will be the magnificent street pageant. This is a competitive event open to all cities and towns of Oregon outside of the Rose City. There will be grand prizes, the capital prize being a princely sum in cash with a number of costly souvenir cups and other trophies of great value and beauty.

Up to the present time about 20 cities and towns of Oregon have been heard from, each showing great interest in the special state parade, and several of these towns, through their business organizations and "boosting" clubs have sent representatives to this city to confer with the festival management with reference to character of the floats which will make the most effective showing for their communities.

The festival association has secured the services of a master float builder from the east who is now here with a corps of assistants ready to advise with all who desire to enter the lists.

Several of the out-of-town commercial bodies, including representatives from Astoria, Eugene, Salem, Hood River, Pendleton and others are busy with arrangements for the construction of their floats, each of which will be typical of the leading industry of the town entering it. For instance, the Astoria float will represent a huge Royal Chinook salmon, that of Hood River, a mammoth red cheeked apple, and so on, there being so vast a diversification of industries in the different parts of the state that the parade of floats as a whole will be one of the greatest educational features ever attempted in a civic demonstration on the Pacific coast.

The railroads of Oregon, and the whole west in fact, are planning to give special reduced rates on all lines good for the whole week of the festival. Special low rates from Portland to all points in Oregon. Get into the public eye. Every town in Oregon is invited to enter some characteristic float in the "All Oregon" parade, and the festival association invites correspondence and personal conference with cities and towns, large and small in this all important matter.
