

TWO HORSES STOLEN

From Wardwell Cram—A Man by
the Name of Young
Suspected.

On Wednesday morning Wardwell Cram discovered that his team, horses of medium weight, one brown the other bay, had been stolen from his barn in the north end of town. A saddle and bridle belonging to H. J. Lister, a neighbor of Mr. Cram's, was also missing. Tracks leading from the barn were followed for a distance of some ten miles north of this place where they were lost in the Blue mountains. A force of six or more men are in that country now looking for the man.

A man named Young who was convicted of horse stealing in Wheeler county a few weeks ago and was sentenced to serve a term of two years broke jail at Fossil early last week.

He was standing in the corridor of the jail talking to his wife the night before he was to be taken to Salem and when the sheriff's back was turned he ran through an open door into the sheriff's office and jumped through a large plate glass window into the street. He was badly cut about the face by the broken glass. From Fossil he came to Mitchell and over the mountain through Summit Prairie and down the Ochoco to the Knighten place where he spent Thursday night last week. From this place he followed the main road on foot, until he reached a point about three miles west of town. From that time until the present there has been nothing heard of him.

Young is a man of medium weight and height, twenty-eight years of age. When last seen he wore a double-breasted navy blue shirt with large pearl buttons in double rows down the front and a black coat.

The most noticeable feature, perhaps, is the scratches on his face caused by the cuts of the plate glass window.

"Wade Hampton" beat "Brandy" in the three-eighth mile dash last Saturday for the \$2000 in the match race at the fair ground track by about 4 feet. It was a race from start to finish; time thirty-six and two-fifths seconds. All of the other events scheduled for the meet took place Friday and Saturday. "Lumber Jim" won in the three-eighth dash purse race, "Kamsack," the half-mile and repeat, and "Wade Hampton" won the quarter-mile and repeat race from "Brandy," taking two straight heats. "Schwitzer" won in the consolation race.

Visiting Central Oregon.

Herman T. Bolman and William Finley, who are touring this part of Oregon collecting photographs and data of the animal and bird life, arrived here Wednesday evening from Shaniko, just a week after starting from Portland. They are making the trip in a White touring car especially equipped for their work. They are provided with a number of cameras and are prepared to photograph running animals and birds that cannot be posed at close range. They will expose more than 1000 dry plates and will cover a range of subjects from landscape to every variety of bird life.

Because of heavy roads they were not able to load the 70 gallons they wished to take from The Dalles and are filling the tanks here for the 150 mile run to Burns. These gentlemen are gathering data that will be used in articles to Outdoor Life, Outing, Sunset and the Pacific Monthly.

BEES-HONEY-MONEY

The bee industry in Crook County should be entered into by a great many more than now do. It doesn't seem to be generally known that they do exceptionally well here, and the price of honey is always high.

Bees travel from two to four miles to gather honey, so that if there is an alfalfa field within this distance from your place, you can profitably care for bees. We feel that a few stands of bees at every ranch will give the greatest returns on the money invested of any branch of industry on the place. We have recently received a complete assortment of Bee Supplies of the "Root's Patent" make, which are made different and from better material than the common western make. We can supply all your needs along this line.

Which
CREAM
SEPARATOR
is Cheapest?

Several catalogues houses are offering "just as good" cream separators for sale at a lower price than the U. S. Cream Separator sells for. But before the unfortunate purchaser of one of these "mail order" separators gets through paying the repair bills he finds that first cost isn't the only difference. The "cheap" separators soon get out of fix because they are built of cheap material, and loosely put together. The cost of repairs alone in the first year or two would pay the difference in price between one of them and a U. S. But more important still they do not skim clean, they waste cream at every skimming.

U. S. CREAM SEPARATORS

have stood the test of time. Many of them have been in use for 10 years or more, and have cost their owners next to nothing for repairs. They are easy running, skim cleaner than any others, have a simple, easy-to-wash bowl; enclosed, safety gearing and a convenient, low milk tank. See a U. S. Separator for yourself—that's the best way. They are sold by
