## BEES-HONEY-MONEY

The bee industry in Crook County should be entered into by a great many more than now do. It doesn't seem to be generally known that they do exceptionally well here, and the price of honey is always high.

Bees travel from two to four miles to gather honey, so that if there is an alfalfa field within this distance from your place, you can profitably care for bees. We feel that a few stands of bees at every ranch will give the greatest returns on the money invested of any branch of industry on the place. We have recently received a complete assortment of Bee Supplies of the "Root's Patent" make, which are made different and from better material than the common western make. We can supply all your needs along this line.

## Redmond News.

Redmond, July 12.

We hardly expected to see any Crook County Journal come out this last week on account of having no Redmond Notes, but it seems they also have their resources. The truth is, about the time these Journal notes usually get written, everybody was helping to get Mrs. Park ready to start the next morning for Ottumwa, Iowa. The last week's improvement has been quite rapid and she felt able to travel alone. Word received from her states that she stayed over a day in Shaniko and started from there Thursday morning in good shape.

## Portland Business College

"THE SCHOOL OF QUALITY"

Tenth and Morrison, Portland, Oregon A. P. Armstrong, LL.B., Principal  
 We occupy two floors 65 by 100 feet, have a \$20,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution.  
 Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest."  
 Open all the year. Students admitted at any time. Catalogue free.
