He, and all farmers in his neighborhood, near Niswonger's station, are enthusiastic over the crop outlook.

The total apportionment for this county is, therefore, \$3,328. The total for the state is \$256,067.

R. A. Ford, new county superintendent of schools, took up his official duties here Monday. He is receiving numerous inquiries as to when the county teachers' institute will be held, and desires to say that no date will be set until after the convention of the county superintendents of schools has been held at Salem September 10 and 11, for the reason that he hopes to be able to induce the state superintendent, Mr. Ackerman, and other prominent educators to attend the Crook county institute. Accordingly, when Mr. Ford returns from Salem next month he will designate and announce the local dates.

We occupy two floors, 65 by 100 feet, have a \$20,000 equipment. We employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution.  
Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest."

**BEEES-HONEY-MONEY**

The bee industry in Crook County should be entered into by a great many more than now do. It doesn't seem to be generally known that they do exceptionally well here, and the price of honey is always high.

Bees travel from two to four miles to gather honey, so that if there is an alfalfa field within this distance from your place, you can profitably care for bees. We feel that a few stands of bees at every ranch will give the greatest returns on the money invested of any branch of industry on the place. We have recently received a complete assortment of Bee Supplies of the "Root's Patent" make, which are made different and from better material than the common western make. We can supply all your needs along this line.
