Last Friday he pedaled over the Ochoco nearly to the Howard mines in the Blue mountain reserve; Saturday he rode down Crooked river to O'Neil, thence across the sage flat to Lone Pine and back by way of the south slope of Grizzly Butte; Monday and Tuesday was occupied in a jaunt up Crooked river and on the Burns road as far as Pine creek, beyond Post. All roads are excessively dusty, making the going very heavy, especially for a bicycle.

Three parties of relatives this week descended upon David Weaver and family, ranchers of down Crooked river, within one 24-hour day; and the queer part of it all is that neither party expected to meet the other. But with all his 21 guests, Mr. Weaver was glad to welcome them and he, his wife and children have been hosts in earnest all week. There are men, women and children merrily fraternizing at the Weaver ranch, and the names of the men are J. W. King and D. C. The first rain in three weeks visited this section yesterday and today, and the heavy clouds still in the sky as the Journal goes to press indicate further precipitation. Not only does this storm end the oppressively hot weather, but it will aid greatly in extinguishing the forest fires raging throughout the county and state. Little or no damage will be done to hay as most of the yield has been garnered and stacked. The rainfall for the past 24 hours amounted to .16 inch.

—"THE SCHOOL OF QUALITY"—

Tenth and Morrison, Portland, Oregon A. P. Armstrong, L.L.B., Principal

☐ We occupy two floors 65 by 100 feet, have a \$20,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution.

☐ Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest."

☐ Open all the year. Students admitted at any time. Catalogue free. References: Any bank, any newspaper, any business man in Portland.

## BEES-HONEY-MONEY

☐ The bee industry in Crook County should be entered into by a great many more than now do. It doesn't seem to be generally known that they do exceptionally well here, and the price of honey is always high.

☐ Bees travel from two to four miles to gather honey, so that if there is an alfalfa field within this distance from your place, you can profitably care for bees. We feel that a few stands of bees at every ranch will give the greatest returns on the money invested of any branch of industry on the place. We have recently received a complete assortment of Bee Supplies of the "Root's Patent" make, which are made different and from better material than the common western make. We can supply all your needs along this line.
