The Pavillas are good, very good. Their triple production in the Prineville opera hall Monday, Tuesday and Wednesday nights of this week, and their dance without extra admission Wednesday night, were at once meritorious, amusing and entertaining. Furthermore, the audiences were appreciative and good-sized, which counts among the assets of an operatic troupe. Another thing, it was all in the family, for father and mother Pavilla have four children of theatrically usable ages, and all appeared here. Perhaps that's one reason why they scored such a success, but merit was the principal reason, as always. Prineville hopes to greet the Pavillas and their sweet singing children again.
