 The opening of the old Oregon Military Road Grant through lower Lake and Harney counties is throwing upon the market the best and cheapest lands in Oregon. It is the opportunity of a lifetime for Oregon people. There are 11,992 acres for sale, in tracts of 10, 20, 40, 80, 160, 320 and 640 acres, the small tracts suitable for fruits and farming, the large tracts for grazing. Read the following extract from a letter from George Conn, the first United States Land Office Receiver at Lakeview: "Lakeview, Oregon, June 17, 1908.—Oregon Valley Land Co.—Gentlemen: In 1905 I came to Lake county and am, therefore, one of the oldest pioneers. The road was established through the best portion of southern Oregon, and even in 1905 I recall that the grant was, in many places, literally covered with wild plums, and, with rare exceptions, these natural fruits have borne fruits every year since, not to speak of the planted and cultivated fruits, which possess a remarkable flavor and have thrived quite as successfully. Of late years, perhaps, the range, especially along the Military Road, has been grazed too closely; still, if fenced, it reproduces very rapidly and constitutes a country which, even if used as in the past, chiefly for stock, enables those who follow that business to become independent in a short time. Of course, at that early date, and until about 1885, the natural grasses were over-knee-deep and covered the great bulk of the grant, and if protected this same condition would return. Yours truly, George Conn."
 Don't miss the opportunity to become owner of a piece of good Oregon land. You won't have to spend a lifetime grubbing stumps.
