E. R. Joslin writes from his home at Goldfield, Colo., for a sample copy of the Journal. He is much interested in Crook county and says he may come here next spring to locate. His is only one of the hundred very similar letters received weekly by the local postmaster, banks and press.

Snow, the first of the season, fell throughout the Blue Mountains and on Grizzly and the higher buttes over the county Wednesday night. Snow is also reported at Bend and on up the Deschutes river. The Cascade range is hidden by heavy clouds today, so it is almost certain that snow fell there, too.

It seems that the recent smallpox scare at Bend was unwarranted and press dispatches which have gone out about the quarantine, and other matters in connection with it, are doing the city on the Deschutes needless injury. There is no quarantine in effect, the Bend schools are open and the man who was afflicted with a very light attack of something like smallpox is staying in a house some distance out of the town and furthermore has never been in need of any attendance, as he has been cooking his own meals and has not even been confined to his bed.

The Prineville moving picture show has been running overtime this week to good houses, the exhibition starting at 4:30 o'clock in the afternoon and continuing until 9 or 10 o'clock at night, as long as patrons appear. These hours will continue until Saturday night. The management has as many as nine reels of pictures on hand this week, each worth \$100. These films are rented from the circuit owners, and the boys here are under \$100 bonds each for their care and safe return. Should one or more reels be burned or otherwise injured \$100 would have to be paid in each case. This, with the theater fittings, constitutes an investment of about \$1,200 in the moving picture business in Prineville.

Judge Bradshaw, presiding circuit jurist of this district, a few days ago fined D. V. Wright and H. M. Ogan, buggy salesmen, \$300 each at The Dalles for violation of the peddlers' license law. The complaint against the salesmen was filed by merchants of Wasco county. The defendants appealed the case to the supreme court, though they had taken out no license to conduct their business. A like case is pending against the same men at Hood River. The case is of interest in Crook county because these men regularly make this territory, and the test of the law will be closely watched.

The Modern Woodmen of America expect to obligate between 40 and 50 new members the night of the next meeting, giving the local camp a membership of about 150. L. P. Deputy Rounds was also present Monday night at the meeting in this city, when plans were laid for the big initiation and open meeting here.

Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest."

Open all the year. Students admitted at any time. Catalogue free. References: Any bank, any newspaper, any business man in Portland.

Phipps, state field worker, will be here for the occasion. The sessions will be held in the Methodist church. Mr. Shipp will write to all district vice-presidents, and it is requested that all Sunday schools in the county send delegates.

Dr. James Withycombe, director of the Oregon experiment station, who judged the livestock at the fair, left on today's stage for his home at Corvallis. At 10 o'clock this morning he delivered a farewell and informal talk to stockmen at the fair grounds. An interview, telling what he thinks of the Crook county exhibit, Prineville and the resources of this county, with some predictions for the future, will appear in the Journal next Thursday.

Next Sunday, October 18, regular services will be resumed at the First Presbyterian church, at the usual hours. Sunday school at 10 a. m., with morning worship and sermon at 11 o'clock.
