HOME CURE FOR ECZEMA

Oil of Wintergreen, Thymol, Glycerine, Etc., Used as a Simple Wash

It really seems strange that so many people suffer year in and year out with eczema, when it is now no longer a secret that oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure.

Old, obstinate cases, it is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who ever used this simple wash and did not find immediately that wonderful soothing, calm, cool sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once.

Instead of trying to compound the oil of wintergreen, thymol, glycerine, etc., in the right proportions ourselves we are using a prescription which is universally found the most effective. It is known as the D. D. D. Prescription, or Oil of Wintergreen Compound. It is made by the D. D. D. Co. of Chicago, and our long experience with this remedy has given us great confidence in its merits.
