The Benton county sheriff had traced the man through from the valley and overtook him, but it was a case of mistaken identity. Sheriff Gellatly returned home last Friday.

ECZEMA LODGES IN THE SKIN

Not a Blood Disease—Cured by Oil of Wintergreen Compound

For many years eczema was supposed to be a blood disease and was erroneously treated as such, but now the best authorities agree that eczema is only a skin disease and must be cured through the skin. The eminent skin specialist Dr. D. D. Dennis, first discovered the eczema germ and his discovery was quickly taken up in Germany and France.

To kill the eczema germ and at the same time heal the skin, Dr. Dennis compounded oil of wintergreen, thymol, glycerine, etc. The remedy is a liquid, not a mere salve, hence it sinks right into the pores of the skin. Washing with this oil of wintergreen compound seems to take away the itch at once; soon the scales drop away and the disease disappears. The prescription has now been used so long as to have proven its absolute merit and we do not hesitate to express our confidence in D. D. D. Prescription as used with D. D. D. Soap.
