Prof. Littlejohn made his second balloon ascension at the fair grounds Sunday afternoon. The attendance was good. The young aeronaut entertained the crowd for a time with club swinging, juggling, slack wire work, etc. About 3:30 the fire was started under the balloon and in a short time it was ready for its upward flight. After a careful examination of the parachute lines and ropes the word was given to let go and away it went on its skyward journey with Littlejohn doing all kinds of stunts on the parachute bar. It was a thrilling sight to witness the young chap hanging by legs and arms a 1000 feet in the air. When he cut loose from the balloon he shot downward at a terrific clip. He must have dropped 300 feet before the parachute filled. Some day the "chute" won't fill and they will carry the boy home on a blotter.

R. M. Powell has bought an alfalfa thresher and will leave for the railroad next week to bring it in. He believes there is more money in threshing alfalfa for the seed than in selling it for hay. He has 100 acres on his place on the McKay that he will thresh this fall and the returns from this will determine whether he is right or not on his judgment. Mr. Powell sent some sample pods to the Oregon Experiment station for examination and he received word that the seed was first-class. In fact, the best that had been received. We see no reason why Mr. Powell's venture ought not to prove successful. Alfalfa seed retails in the market here at 25 cents a pound and the user takes every chance on its purity, vitality and adaptability to this climate. With seed raised at home everything is vouched for.

As a strong friend has said: "He touches the mainspring of life in the throbbing, longing heart of man, with cheerful words that come like radiant visitors of hope, thrilling and inspiring men and women to do right because it is right and makes for true nobility."
The entire community is invited to these meetings. Let each one bring a Bible, and come for the purpose of worship, not fault finding. All christian people are urged to co-operate in making the meetings a success.
