Hill Man at Medford.

The Pacific & Eastern railway was recently purchased by John R. Allen of New York. This is the Medford Crater Lake line. This road and the country it will tap when extended was carefully inspected by John F. Stevens at the time he made his tour through the state incognito. The rumor is persistent that the road has been purchased for a link in the Hill plan for lines in Oregon. H. N. Randall, a brother-in-law of Porter Bros., and one of their best lieutenants in the recent fights in the Deschutes canyon is now at Medford with a party of engineers, looking after matters for the P. & E. The Medford Mail says that Randall's connections with the Hill people and his present position are significant.

Is it Necessary?

Two telephone systems means double rentals with inferior service. The Pioneer Telegraph & Telephone Company will give, at a reasonable rate, telephone connections and service to any and all farmers' lines in Crook county. Mr. Merchant, are you going to pay double rent and have poorer service to help a few farmers putting in a store would you want the telephone company to help it along?
