Prineville Postoffice Complimented.

H. G. Durand, postoffice inspector, has just finished checking up the Prineville postoffice and states that the affairs of the office are in excellent shape. He says that during the past six months there has not been a single complaint filed against the local postoffice, which is a remarkable showing for an office of this size, and one of which few offices can boast.

The local office is keeping pace with the development of the country. During the month of December stamp sales for Christmas packages alone amounted to some \$500.

The basic rate of the office shows that it will be placed at the top of the list as a third-class office next year and no doubt the postmaster's salary will be on the basis of \$1700 a year after July next.
