In an effort to keep pace with the many improvements in agricultural machinery, we are introducing every season new types of implements that have been tried and found to materially increase the yield of the soil in other sections similar to ours. This year we offer the Canton Alfalfa Harrow and a big assortment of Land Packers. In packers we have the Dunham for light, sandy soil and the Campbell for heavier soil. These packers are designed to conserve the moisture and to obtain the proper proportion of air and moisture in the ground and thus increase yield

Jury Disagree.

One juror saved Binger Hermann from conviction of the charge of conspiracy to defraud the government in the Blue Mountains forest reserve. The jury was out forty-six hours and took thirteen ballots when a juror handed a note to the court saying that he was hanging the jury and could not change his opinion without going contrary to the dictates of his conscience.
Promptly after the discharge of the jury Francis J. Heney, the government prosecutor, moved to have the case set again in two weeks. Just when the case will be retried has not been settled. It is said that if Hermann had not appeared upon the witness stand he would have been acquitted.

Teachers Pass Exams With Flying Colors

The February examinations are over and County Superintendent Ford is mighty glad of it. The papers are all graded and the county superintendent is much pleased with the work done. He had the largest number of applicants at this February examination that ever wrote for state and county papers in Crook county. "I am really proud of the records made by outside teachers. Those who have had university and normal training show it. Some of our home teachers, too, who were working for higher certificates, passed with flying colors. As I said before," remarked Mr. Ford, "I am greatly pleased with the work done. With such teachers in charge of the schools of the county our educational system will be placed upon an equal footing with the best afforded in any county in the state." The successful applicants are as follows:

E-A Authors' Club.

The E-A Authors' Club met on last Saturday with Miss Edra Williamson and listened to the first regular program for the year and if this is to be a criterion, we may expect something exceptional from the members of this organization.
The roll call, answered by quotations from Shakespeare's "Hamlet," was especially interesting as was the biographical sketch of this famous author by Miss Edra Williamson.
Miss Lotta Smith gave an excellent review of "Hamlet" which was followed by a discussion of the characters by Miss Agnes Elliott who brought out the strength and weakness of the important personages of the play.
The reading of Hamlet's soliloquy, "To Be or Not To Be," by Miss Cella Neims was greatly appreciated by the club.
After a general discussion of the play, refreshments were served and the club adjourned to meet in two weeks with Miss Conway.
