Fanning Mills & Baggers
The well known Oliver and Canton
Plows in walking, sulky and gang

In an effort to keep pace with the many improvements in agricultural machinery, we are introducing every season new types of implements that have been tried and found to materially increase the yield of the soil in other sections similar to ours. This year we offer the Canton Alfalfa Harrow and a big assortment of Land Packers. In packers we have the Dunham for light, sandy soil and the Campbell for heavier soil. These packers are designed to conserve the moisture and to obtain the proper proportion of air and moisture in the ground and thus increase yield
