Complete Line—All Sizes and Styles

Wood Frame Harrows  
Spring Tooth Harrows  
Superior Grain Drills  
Fanning Mills & Baggers  
The well known Oliver and Canton  
Plows in walking, sulky and gang

In an effort to keep pace with the many improvements in agricultural machinery, we are introducing every season new types of implements that have been tried and found to materially increase the yield of the soil in other sections similar to ours. This year we offer the Canton Alfalfa Harrow and a big assortment of Land Packers. In packers we have the Dunham for light, sandy soil and the Campbell for heavier soil. These packers are designed to conserve the moisture and to obtain the proper proportion of air and moisture in the ground and thus increase yield

### There Are Two Classes of Investors

**ONE KIND** This kind makes most money. He invests in farm lands and city property while prices are low. Every advance in price is that much money in his pocket.

**ANOTHER KIND** This kind hesitates while prices advance higher and higher but he, too, finally buys, because the value of the investment actually forces him.

**Land Owners, Attention**  
If you wish to sell and your property is reasonable, list with us. We are in touch with capital and are receiving many inquiries concerning raw and improved farm lands in Central Oregon.

**HENDERSON INVESTMENT CO.**
