There Are Two Classes of Investors

ONE KIND

This kind makes most money. He invests in farm lands and city property while prices are low. Every advance in price is that much money in his pocket.

ANOTHER KIND

This kind hesitates while prices advance higher and higher but he, too, finally buys, because the value of the investment actually forces him.

Land Owners, Attention

If you wish to sell and your property is reasonable, list with us. We are in touch with capital and are receiving many inquiries concerning raw and improved farm lands in Central Oregon.
