One Million Dollars for a Good Stomach! A Warning to You

The newspapers and medical journals have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach. This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable. His misfortune should serve as a warning to others. Dyspepsia is caused by an abnormal state of the gastric juices. Some of the elements to restore the natural working of the stomach are absent, but Digesto contains what is missing. Every one troubled with indigestion and dyspepsia should secure a box of Digesto Tablets and take one after each meal and get cured. Digesto Tablets are very pleasant to take. They soothe the irritable weak stomach, strengthen and invigorate the digestive organs, relieve nausea and indigestion, promote nutrition and bring about a feeling of comfort. Price 50 cents.
